Readers gain an understanding of the nature of design through its history from the mid nineteenth century to today's multicultural global marketplace, and learn to recognize the elements and principles of design in colorfully illustrated chapters. Marooned and fighting for their lives against the elements, Jeryon and his companion discover that the island they've landed on isn't quite as deserted as they originally thought. They find a rare baby dragon that, if trained, just might be their ticket off the island.
