NEW! Combined Text & Cases Version Considered by many to be the best textbook on Strategy, Contemporary Strategy Analysis 7th edition builds on the strengths of previous editions by introducing students to the core concepts and principles of strategy. In this most accessible strategy text, Robert M. Grant combines clarity of exposition with concentration on the fundamentals of value creation and an emphasis on practicality. In this seventh edition, a greater focus on strategy implementation reflects the needs of firms to reconcile scale economies with entrepreneurial flexibility, innovation with cost efficiency, and globalization with local responsiveness. Rob Grant eloquently combines theory with current real world examples and practice using a clearly written, logical and comprehensive style. Contemporary Strategy Analysis 7th edition is suitable for both MBA and advanced undergraduate students. Full teachings notes to the cases will be available upon publication at the companion website [www.contemporarystrategyanalysis.com](http://www.contemporarystrategyanalysis.com) Contemporary Strategy Analysis 7th Edition is also available in a text only version - ISBN: 9780470747100

## **Strategic Management**

Traditional narratives on strategic management no longer fulfil the needs of students, practitioners, consultants and business owners operating within contemporary society. This textbook provides a differentiated approach to the topic, highlighting the dichotomy between theory and practice, and guiding readers towards an understanding of the future of strategic management. Moving beyond the short-sighted goal of profit maximization, Contemporary Issues in Strategic Management shines a light on measures that really matter, such as value. A wealth of global examples provide an illustration of competitive advantage from market-based and state-based perspectives, giving an insight into the activities that lead to the formation of successful and unsuccessful strategies. Written by two distinguished scholars in the field, this global textbook is essential reading for postgraduate students of strategic management worldwide.

## **Contemporary Issues in Strategic Management**

This ground-breaking book reframes the perspective taken in most strategy research in two key ways: by describing organizational renewal from a middle-level perspective and by reconceptualizing the theoretical basis for strategy process research. Part I reviews the existing literature in the strategy process, including recent literature on strategic renewal. Part II builds the theoretical basis for a middle level perspective, focusing on knowledge development, social network analysis and organizational trust. Part III moves from synthesizing existing

research toward the development of a model for conducting research from a middle-level perspective.

## **Building Strategy from the Middle**

In today's increasingly diverse, global, interconnected business world, diversity and inclusion (D&I) is no longer just "the right thing to do," it is a core leadership competency and central to the success of business. Working effectively to combat unconscious bias across differences such as gender, culture, generational, race, and sexual orientation not only leads to a more productive, innovative corporate culture but also to a better engagement with customers and clients. The Inclusion Dividend provides a framework to tap the bottom-line impact that results from an inclusive culture. Most leaders have the intent to be inclusive, however translating that intent into a truly inclusive outcome with employees, customers, and other stakeholders requires a focused change effort. The authors explain that challenge and provide straightforward advice on how to achieve the kind of meritocracy that will result in a tangible dividend and move companies ahead of their competition.

## **Business Transformation Strategies**

This book is devoted to the dynamic development of retailing. The focus is on various strategy concepts adopted by retailing companies and their implementation in practice. This is not a traditional textbook or collection of case studies; it aims to demonstrate the complex and manifold questions of retail management in the form of twenty lessons, where each lesson provides a thematic overview of key issues and illustrates them via a comprehensive case study. The examples are all internationally known retail companies, to facilitate an understanding of what is involved in strategic retail management and illustrate best practices. In the third edition, all chapters were revised and updated. Two new chapters were added to treat topics like corporate social responsibility as well as marketing communication. All case studies were replaced by new ones to reflect the most recent developments. Well-known retail companies from different countries, like Tesco, Zalando, Hugo Boss, Carrefour, Amazon, Otto Group, are now used to illustrate particular aspects of retail management.

## **Strategic Management**

Over the past ten years, there has been growing interest in the process of strategic decision-making among both managers and researchers. Strategic decisions are important for five main reasons: They are large-scale, risky and hard to reverse; they are a bridge between deliberate and emerging strategies; they can be a major source of organizational learning; they play an important part in the development of individual managers and they cut across functions and academic disciplines. Strategic Decisions summarizes the current state of the art in research on strategic decision-making, with chapters prepared by leading strategy researchers. The editors also present implications for current application and proposed directions for future research.
