Supporting Education □ The Teaching Assistant□s Handbook

Tap into your natural ability to create! Engaging, proven exercises for developing creativity Priceless resource for teachers, artists, actors, everyone Artist and educator Corita Kent inspired generations of artists, and the truth of her words "We can all talk, we can all write, and if the blocks are removed, we can all draw and paint and make things" still shines through. This revised edition of her classic work Learning by Heart features a new foreword and a chart of curriculum standards. Kent's original projects and exercises, developed through more than 30 years as an art teacher and richly illustrated with 300 thought-provoking images, are as inspiring and as freeing today as they were during her lifetime. Learn how to challenge fears, be open to new directions, recognize connections between objects and ideas, and much more in this remarkable, indispensable guide to freeing the creative spirit within all of us. With new material by art world heavyweights Susan Friel and Barbara Loste, Learning by Heart brings creative inspiration into the 21st century!

This Enhanced Edition includes an A+P CD-ROM. The text provides comprehensive information on the theory and practice of massage therapy, successfully fusing the

anatomical sciences with hands-on techniques. It covers Swedish massage techniques, in addition to clinical massage, Asian bodywork techniques, spa techniques, seated massage, and adaptations for special populations - addressing history, equipment, hygiene and sanitation, technique, contraindications, communication and client management, alternative therapies, and business. An entire unit on anatomy and physiology reinforces a general understanding of anatomical science while focusing on practical information that is most important to the massage practitioner, such as specific benefits, contraindications, touch research, and adaptations of massage to each individual body system. Extensive pedagogy includes chapter objectives, famous quotations, chapter self-tests, mini-labs, notes from the author, FYI boxes, biographies, and other special boxes. Interactive skill building activities encourage readers not just to read but to think about, experience, and discuss topics, as well as write about their goals and aspirations. Anatomy & Physiology unit includes over 100 pathologies with massage implications and a master index for cross-reference in an appendix at the back of the book. The Hydrotherapy chapter covers over 30 spa applications, essential for the large number of massage therapists who work in spa settings. Unique anatomy and physiology unit provides all information on the subject necessary for the National Certification Exam, eliminating the need for supplemental texts. Extensive discussions of cancer are provided, based on new research findings. A helpful table of massage movements and their variations features over 90 illustrative photos. Mini-lab skill building activities, designed so that left-brain and right-brain techniques reinforce each other and enhance the learning process by stimulating creativity and imagination. Biographical sketches feature biographies and candid interviews with many of the pioneers of massage therapy, both past and present. Self-tests at the end of each chapter assist in self-assessment and help students study for and take tests. Tables, charts, and checklists make the book more than an instructional text; it doubles as a practical reference for practicing therapists. Insightful, thought-provoking quotations throughout the book inspire readers emotionally and spiritually. Colorful format, with illustrations, photos, and attractive full-color design makes the book more visually appealing. Anatomical drawings are enlarged and enhanced to show clear detail. A chapter on Asian bodywork assists Western-based learners in understanding Eastern philosophy and techniques - a key content element on the National Certification Exam. A chapter on spa technologies, currently a hot topic in massage, makes practitioners more marketable. A chapter on clinical application of massage features common injuries and pathologies, symptoms, causes, and suggested techniques for treatment. A business chapter includes new information on accounting, investing, and planning for retirement. The enhanced 2nd edition includes a bound-in CD-ROM that contains Primal Pictures 3-D Anatomy with Animations, The Body Spectrum Anatomy Coloring Book, and over 25 drag-and-drop labeling exercises.

Management: A Pacific Rim Focus continues to equip students with the skills they need to become informed, effective managers by offering the most diverse and

original case studies of any management text, and rigorously exploring the impact of e-commerce and workplace diversity within a genuine Asia-Pacific context. This new Multimedia Edition extends the book's critical approach through 5-10 new critical thinking questions and 50 new, original and relevant industry cases, made available on an accompanying Multimedia CD and linked to the main text as part of an integrated learning package. The new questions further extend students by making them think critically and strategically about management theory and practice; the new cases address more strongly issues of gender and the management practices of global organisations. Also available on the Multimedia CD is video material that contextualises the chapter topics and is supplemented by video case notes to help students learn in a true multimedia environment.

She's loved him all her life. Lady Elise Halden knows how to get a horse to bend to her will with a gentle touch and subtle coaxing. But she's learning that bringing the new Earl of Camden to heel is nothing like training a horse. If she has any hope of reining in the Earl's affections, she will need a plan. With help from her friend Lady Beverly, and her sister-in-law the Duchess, Elise sets out to win her indifferent Earl's heart. He's admired her from a respectable distance. As young men, Michael Brightman and his best friend swore sisters were off limits. This promise was made solely to protect his own sisters from his friend's charming, rakehell ways. The Duke of Caversham's little sister was always a precocious minx to avoid, till one day Michael realizes Lady Elise is all grown up and the things he wants to do with the lady are surely going to upset the friendship with her brother. Together they discover that physical evidence doesn't equate truth and trusting the heart is sometimes the hardest lesson to learn.
