The Princess and the Goblin and Other Fairy Tales

A triumphant quest for the truth. First in the Wingfold Trilogy from the 19th-century Scottish author of Paul Faber Surgeon and There and Back. The character of Thomas Wingfold is introduced in this preeminent of George MacDonald's English novels, a young curate suddenly brought face-to-face with the hypocrisy of having sought the pulpit as a profession rather than a spiritual calling. Wingfold's prayerful journey into faith highlights MacDonald's most powerful "theological novel." We also meet the dwarf Joseph Polwarth, Wingfold's spiritual mentor and one of MacDonald's most memorable humble apologists for truth. The depth and poignancy of Wingfold's quest makes this 1876 publication one of MacDonald's best-loved works. MacDonald biographer and editor Michael Phillips ranks Thomas Wingfold Curate near the apex of MacDonald's corpus, among his personal favorites along with Malcolm, Sir Gibbie, and Donal Grant.

George MacDonald (10 December 1824 - 18 September 1905) was a Scottish author, poet, and Christian minister. He was a pioneering figure in the field of fantasy literature and the mentor of fellow writer Lewis Carroll. His writings have been cited as a major literary influence by many notable authors including W. H. Auden, C. S. Lewis, J. R. R. Tolkien, Walter de la Mare, E. Nesbit and Madeleine L'Engle. C. S. Lewis wrote that he regarded MacDonald as his "master": "Picking up a copy of Phantastes one day at a train-station bookstall, I began to read. A few hours later," said Lewis, "I knew that I had crossed a great frontier." G. K. Chesterton cited *The Princess and the Goblin* as a book that had "made a difference to my whole existence"

The Princess and Curdie

Two years have passed since the last book, and Princess Irene and her father go to Gwyltystorm, while Curdie (a miner boy who is the friend of the Princess) stays at home with his mother and father. As the years go by, Curdie begins to hunt for

pleasure. He also slowly begins to doubt Irene's story of her great-great grandmother. One day, he shoots down a white pigeon. Curdie then remembers Irene's tale of her grandmother's pigeons, assumes the one he has shot down was one of them, and becomes aware of his folly. A light appears at the roof of the castle, and Curdie follows it. There, Curdie meets the old Princess, who appears small and withered, contrary to Irene's descriptions. The old Princess gently tells Curdie of his wrong thinking, and he confesses. Because he now believes, the pigeon heals. He is then told to keep his bow and arrows but use them for good instead of bad things. The old Princess then tells Curdie he must go on a special quest. Before she sends him, she burns his hands in her special fire of roses. His cleansed hands now possess the ability to be able to feel the hands of his fellow men and detect what kind of person (or beast) they are on the inside. She also gives Curdie's father a special emerald to keep while Curdie is away on the quest.

This enchanted collection brings together eight of George McDonald's most well known fantasies into one delightful volume. The George McDonald Treasury includes The Princess and the Goblin, The Princess and Curdie, The Light Princess, Phantastes, The Giant's Heart, At the Back of the North Wind, The Golden Key, and Lilith. MacDonald's classic works have inspired deep admiration in such notables as J. R. R. Tolkien, C. S. Lewis, G. K. Chesterton, Elizabeth Yates, and Lewis Carroll. C. S. Lewis wrote, "I have never concealed the fact that I regarded him as my master; indeed I fancy I have never written a book in which I did not quote from him." One day while in a train station, he picked up a copy of Phantastes and began to read. "A few hours later," said Lewis, "I knew I had crossed a great frontier." G. K. Chesterton cited The Princess and the Goblin as a book that had "made a difference to my whole existence." Madeleine L'Engle wrote, "Surely George MacDonald is the grandfather of us all-all of us who struggle to come to terms with truth through imagination." If you loved J. R. R. Tolkien's Hobbit and Lord of the Rings, you will love the works of his hero and model - George McDonald.

The Complete Fairy Tales

Curdie was the son of Peter the miner. He lived with his father and mother in a cottage built on a mountain, and he worked with his father inside the mountain. A mountain is a strange and awful thing. In old times, without knowing so much of their strangeness and awfulness as we do, people were yet more afraid of mountains. But then somehow they had not come to see how beautiful they are as well as awful, and they hated them-and what people hate they must fear. Now that we have learned to look at them with admiration, perhaps we do not feel quite awe enough of them. To me they are beautiful terrors. I will try to tell you what they are. They are portions of the heart of the earth that have escaped from the dungeon down below, and rushed up and out. For the heart of the earth is a great wallowing mass, not of blood, as in the hearts of men and animals, but of glowing hot, melted metals and stones. And as our hearts keep us alive, so that great lump of heat keeps the earth alive: it is a huge power of buried sunlight-that is what it is. Now think: out of that cauldron, where all the bubbles would be as big as the Alps if it could get room for its boiling, certain bubbles have bubbled out and escaped-up and away, and there they stand in the cool, cold sky-mountains. Think of the change, and you will no more wonder that there should be something awful about the very look of a mountain: from the darkness-for where the light has nothing to shine upon, much the same as darkness-from the heat, from the endless tumult of boiling unrest-up, with a sudden heavenward shoot, into the wind, and the cold,

and the starshine, and a cloak of snow that lies like ermine above the blue-green mail of the glaciers; and the great sun, their grandfather, up there in the sky; and their little old cold aunt, the moon, that comes wandering about the house at night; and everlasting stillness, except for the wind that turns the rocks and caverns into a roaring organ for the young archangels that are studying how to let out the pent-up praises of their hearts, and the molten music of the streams, rushing ever from the bosoms of the glaciers fresh born. Think, too, of the change in their own substance-no longer molten and soft, heaving and glowing, but hard and shining and cold. Think of the creatures scampering over and burrowing in it, and the birds building their nests upon it, and the trees growing out of its sides, like hair to clothe it, and the lovely grass in the valleys, and the gracious flowers even at the very edge of its armour of ice, like the rich embroidery of the garment below, and the rivers galloping down the valleys in a tumult of white and green! And along with all these, think of the terrible precipices down which the traveller may fall and be lost, and the frightful gulfs of blue air cracked in the glaciers, and the dark profound lakes, covered like little arctic oceans with floating lumps of ice. All this outside the mountain! But the inside, who shall tell what lies there? Caverns of awfulest solitude, their walls miles thick, sparkling with ores of gold or silver, copper or iron, tin or mercury, studded perhaps with precious stones-perhaps a brook, with eyeless fish in it, running, running ceaselessly, cold and babbling, through banks crusted with carbuncles and golden topazes, or over a gravel of which some of the stones are rubies and emeralds, perhaps diamonds and

sapphires-who can tell?-and whoever can't tell is free to think-all waiting to flash, waiting for millions of ages-ever since the earth flew off from the sun, a great blot of fire, and began to cool.Then there are caverns full of water, numbingly cold, fiercely hot-hotter than any boiling water.

She calls herself the North Wind, and--holding tight to her long braids--she whisks Diamond over London and shows him many wonderful sights.

But the best thing of all is when she takes him to the country at "the back" of the North Wind, a dream-like land where the cold wind never blows. Copyright © Libri GmbH. All rights reserved.

The Princess and Curdie - Large Print Edition

George MacDonald occupied a major position in the intellectual life of his Victorian contemporaries. This volume brings together all eleven of his shorter fairy stories as well as his essay "The Fantastic Imagination". The subjects are those of traditional fantasy: good and wicked fairies, children embarking on elaborate quests, and journeys into unsettling dreamworlds. Within this familiar imaginative landscape, his children's stories were profoundly experimental, questioning the association of childhood with purity and innocence, and the need to separate fairy tale wonder from adult scepticism and disbelief.

A Double Story

Greg Hart can't slay a dragon. He'd be lucky to win a fight against one of the smaller girls at school. His only real skill is that he can run faster than any other twelve-year-old boy in his class, a necessity, since that's who he's usually running from. Oh, it's not like he's never been the hero at the center of an adventure. It's

just the kind of adventures he's been involved with have always been the made-up kind he's written about in his journal. Now the magicians of Myrth have yanked Greg into a strange new world, where the monsters he must run from are far scarier--and hungrier--than anything he's ever run from before. He tries to tell everyone there's been a mistake. Ruuan is a very large dragon, while Greg, on the other hand, is neither large nor a dragon. He's barely much of a boy. Unfortunately, such trivialities could never stop the people of Myrth from believing Greg will rescue King Peter's daughter from Ruuan. After all, Greg has been named in a prophecy, and no prophecy has ever been wrong before. Why, Greg wonders, does he have to be at the heart of the first one that is?

Lilith is considered among the darkest of MacDonald's works, and among the most profound. It is a story concerning the nature of life, death and salvation. Many believe MacDonald is arguing for Christian universalism, or the idea that all will eventually be saved.

The Castle

The Princess and the Goblin

The Day Boy and the Night Girl author: George MacDonald t had not been there before the darkness came, she suspected that it had to do with the lamp. She kneeled therefore, and searched with her hands, and bringing two large pieces together, recognized the shape of the lamp. Therefore it flashed upon her that the lamp was dead, that this brokenness was the death of which she had read without understanding, that the darkness had killed the lamp. What then could Falca have meant when she spoke of the lamp going out? There was the lamp -- dead indeed, and so changed that she would never have taken it for a lamp, but for the shape! No, it was not the lamp anymore now it was dead, for all that made it a lamp was gone, namely, the bright shining of it. Then it must be the shine, the light, that had gone out! That must be what Falca meant -- and it must be somewhere in the other place in the wall. She started afresh after it, and groped her way to the curtain.

Thomas Wingfold Curate

George MacDonald's Victorian fairy tales transformed the genre of fantasy. His work also shaped the next generation of both children's literature and modernism: C.S. Lewis regarded MacDonald as a major influence, and writers as diverse as G.K. Chesterton and W.H. Auden acknowledged his significance. His best known story for children, *The Princess and the Goblin*, tells the story of a lonely child princess and her friend, a brave miner boy, in their battle with subterranean monsters. Along with *The Princess and the Goblin*, this edition includes four other major fairy stories by MacDonald, as well as a selection of historical documents on the works' composition and reception, Victorian fairy tales, and MacDonald's literary criticism.

Ranald Bannerman's Boyhood, The Princess and Curdie & The Princess and the Goblin

The Light Princess presents an unusual twist on the fairy tale genre. The strange curse placed on the baby princess in this tale prevents the child from having any gravity. The princess must be kept from floating away by a rope that moors her to the ground like a human balloon. Somehow she must find a way to fall in love to break the spell. A wonderful spin on the *Sleeping Beauty* myth, *The Light Princess* can be enjoyed by adults and children thanks to the masterful story telling of

George MacDonald (The Princess and the Goblin).
