Bristling with demons, grotesques, and bizarre apparitions, the graphic work of Odilon Redon has often seemed to be the product of a mind unhinged. In *The Temptation of Saint Redon*, Stephen F. Eisenman argues instead that these works are Redon's conscious and considered response to changing social realities—an attempt to find refuge from the forces of modernization in an imaginative world of the macabre and the fantastic. Eisenman's careful attention to the circumstances of Redon's life (1840-1916) allows him to bring into focus the interconnections between Redon's complex style and the culture and society of his time. Born and raised on a sixteenth-century estate near Bordeaux, Redon was immersed as a child in traditional rural culture. "I spent my entire childhood in the Médoc completely free, among peasant children," he recalled in his memoirs. "I heard them tell supernatural tales—witches still exist there." Indeed, local tales and legends of witches, ghosts, one-eyed monsters, evil eyes, and wood fairies figure prominently in Redon's graphic works, which he called his noirs, or "blacks." After formal training at Bordeaux and Paris in the 1850s and 1860s, Redon began to chart his independent artistic course. Eisenman shows how, rejecting both

naturalism and classicism, Redon, a prototypical Symbolist, found in grotesque and epic genres the expression of organic communities and precapitalist societies. He places Redon's desire for this imagined world of superstitious simplicity a desire manifest in his entire mature artistic practice in the context of contemporary avant-garde movements. Redon's great noirs of the 1870s and 1880s, dreamlike configurations of seemingly irreconcilable elements from portraits, still lifes, and landscapes, show an increasingly subtle control of connotation and a complex indebtedness to caricature, allegory, and puns. Many of the noirs also visually interpret works by like-minded authors, including Baudelaire, Flaubert, Poe, and Mallarmé, one of Redon's close friends. Eisenman's analysis of the noirs underscores Redon's interest in creating an imaginative, even fantastic art, that could act directly on the human spirit. In addition to deepening our understanding of Redon and his art, *The Temptation of Saint Redon* exposes a link between place, politics, personal history, and the artistic imagination.

### **David Teniers the Younger (1610-1690)**

The Temptation of Saint Anthony is a historical novel. It takes as its subject the famous temptation faced by Saint Anthony the Great in the Egyptian desert, a theme often repeated in medieval and modern art. It is written in the form of a play script. It details one night in the life of Anthony the Great where Anthony is faced with great temptations, and it was inspired by the painting, which he saw at the Balbi Palace in Genoa. Gustave Flaubert (1821–1880) was an influential French writer who was perhaps the leading exponent of literary realism of his country. He is known especially for his first published novel, *Madame Bovary* and for his scrupulous devotion to his style and aesthetics. The celebrated short story writer Maupassant was a protégé of Flaubert.

Despite the fact that David Teniers the Younger has always been considered one of the most important and prolific Flemish painters of the seventeenth-century, no critical biography of the artist exists which draws on the comprehensive documentary evidence of his life and work. Hans Vlieghe's monograph aims to fill this gap. Based on the corpus of all known documentary sources as well as some newly discovered ones, this book traces the path of Teniers's success and provides a detailed survey of his relations with his patrons and clientele, while also

illuminating his studio practice and associations with fellow artists in Antwerp and Brussels. The author in addition examines Teniers's manifold activities against the background of his ever-changing social and familial context. The resulting analysis draws a picture of a painter who came from the artistic milieu of Antwerp, yet deliberately made different choices from those of his father, from whom the young Teniers received his initial training. In order to meet changing tastes and satisfy the demands of the market, and following the example of Adriaen Brouwer, Teniers quickly acquired a reputation as a painter of low-life genre scenes. Vlieghe goes on to clarify how Teniers rose to become court painter to the Habsburg governors in Brussels, and the means used by the artist to achieve greater social recognition, which included extensive self-representation and considerable conspicuous consumption. Teniers's later years were marred by difficulties, brought on by his diminishing success as an artist and by financial difficulties with his children. Vlieghe shows how these circumstances led to Teniers dying in rather deplorable circumstances.

“As gritty and hard-driving a thriller as you’ll find....The action never stops, the language sings and stings.” —Washington Post The City Primeval in Elmore Leonard’s relentlessly gripping classic noir is Detroit, the author’s much-maligned hometown and the setting for many of the Grand Master’s acclaimed crime novels. The “Alexander the Great of crime fiction” (Pittsburgh Post-Gazette) shines in these urban mean streets, setting up a downtown showdown between the psychopathic, thrill-killing “Oklahoma Wildman” and the dedicated city cop who’s determined to take him down. The creator of U.S. Marshal Raylan Givens of TV’s Justified fame, Elmore Leonard is the equal of any writer who has ever captivated readers with dark tales of heists, hijacks, double-crosses, and murder—John D. MacDonald, Dashiell Hammett, James M. Cain, and Robert Parker included—and nobody then or now is better.

#### **Particular Saints**

Written between the mid-fourth and late sixth centuries to commemorate and

glorify the achievements of early Christian saints, these six biographies depict men who devoted themselves to solitude, poverty and prayer. Athanasius records Antony's extreme seclusion in the Egyptian desert, despite temptation by the devil and visits from his followers. Jerome also shows those who fled persecution or withdrew from society to pursue lives of chastity and asceticism in his accounts of Paul of Thebes, Hilarion and Malchus. In his Life of Martin, Sulpicius Severus describes the achievements of a man who combined the roles of monk, bishop and missionary, while Gregory the Great tells of Benedict, whose Rule became the template for monastic life. Full of vivid incidents and astonishing miracles, these Lives have provided inspiration as models for centuries of Christian worship.

The life and times of one of our most enchanting artists; a twentieth-century fairy tale, lovingly remembered and luminously told. Fourteen years ago, the artist Dorothea Tanning published *Birthday*, a collection of reminiscences. Now she has expanded it into a memoir of her journey through the last century as confidant, collaborator, and muse to some of its most inspired minds and personalities: a diverse assemblage that ranges from the fathers of dada and surrealism to Virgil Thompson, George Balanchine, Alberto Giacometti, Dylan Thomas, Truman Capote, Joan Miró, James Merrill, and many more. At its center is the relationship, tenderly rendered, between Tanning and her famed husband, the enigmatic surrealist Max

Ernst. Whether recalling the poignant presence of her friend Joseph Cornell or simply marveling at the facades along a Venice canal, "their filmy reflections fluttering in the dirty canal like fragile altar cloths hung out to dry," Tanning's writing is beguiling, wry, and shot through with the same eye for pregnant detail and immanent magic that marks her art.

The Renaissance in Germany was one of the most important periods in the history of European printmaking. Largely through the singular efforts of Albrecht Durer, the woodcut was transformed from cheap book decoration into a medium of artistic merit in its own right. From the last quarter of the fifteenth century painters began to take up the technique of engraving and introduced many innovations. The first etchings ever to be produced, which also include the earliest pure landscapes in European art, date from the first quarter of the sixteenth century.

The collection held by the British Museum ranks with the greatest in the world and this catalogue includes some of its finest examples. Prints were used to propagate the ideas of the Reformation and the humanists, and were also favoured by the impecunious Holy Roman Emperor Maximilian I as a cheap means of glorifying his status, Giulia Bartrum emphasises the stylistic diversity of German Renaissance prints and places them in their historical context. There is a representative selection of the works of Albrecht Durer, who combined unsurpassed technical excellence with artistic genius, and his most idiosyncratic of pupils. Hans Baldung Grien, is also discussed. Artists from Augsburg include Hans Burgkmair, Hans Schaufelein and Jorg Breu. Also represented are Lucas Cranach, close friend of Martin Luther and specialist in elegant portraits and courtly subjects for the dukes of Saxony, and Hans Holbein the Younger, who designed book illustrations in Basel and became court painter to Henry VIII of England.

Controversial, misunderstood, and sometimes overlooked, Minor White (1908–1976) is one of the great photographers of the twentieth century, whose ideas exerted a powerful influence on a generation of photographers and still resonate today. His photographic career began in 1938 in Portland, Oregon, with assignments for the WPA (Works Progress Administration). After serving in World War II and studying art history at Columbia University, White's focus shifted toward

the metaphorical. He began creating images charged with symbolism and a critical aspect called equivalency, referring to the invisible spiritual energy present in a photograph made visible to the viewer. This book brings together White's key biographical information—his evolution as a photographer, teacher of photography, and editor of *Aperture*, as well as particularly insightful quotations from his journals, which he kept for more than forty years. The result is an engaging narrative that weaves through the main threads of White's life, his growth as an artist, as well as his spiritual search and ongoing struggle with his own sexuality and self-doubt. He sought comfort in a variety of religious practices that influenced his continually metamorphosing artistic philosophy. Complemented with a rich selection of more than 160 images including some never published before, the book accompanies the first major exhibition of White's work since 1989, on view at the J. Paul Getty Museum from July 8 to October 19, 2014.

### **The Life of Saint Antony**

The Temptation of St. Anthony by Gustave Flaubert and translated by Lafcadio Hearn. The Temptation of Saint Anthony (French La Tentation de Saint Antoine) is a book which the French author Gustave Flaubert spent his whole adult life fitfully working on. In 1845, at age 24, Flaubert visited the Balbi Palace in Genoa, and was inspired by a painting of the same title, then attributed to Bruegel the Elder (now thought to be by one of his followers). Flaubert worked at the subject in three versions, completed in 1849, 1856 (with extracts published at that time) and 1872, before publishing the final version in 1874. It takes as its subject the famous temptation faced by Saint Anthony the Great, in the Egyptian desert, a theme often repeated in medieval and modern art. It is written in the form of a play script, detailing one night in the life of Anthony the Great, during which he is faced with great temptations.

2013 Reprint of 1950 edition. Full facsimile of the original edition, not reproduced with Optical Recognition Software. The present volume contains the most important document of early monasticism, "The Life of St. Antony," whose author is no less a man than the great St. Athanasius himself. Antony, generally considered the father of Christian monasticism, was born circa 250 a.d. to well-to-do parents in Middle Egypt. Athanasius is counted as one of the four Great Doctors of the Church in the Roman Catholic Church as well as one of the Great Doctors of the Church in

Eastern Orthodoxy, where he is also labeled the "Father of Orthodoxy." He is also celebrated by many Protestants, who label him "Father of The Canon." Athanasius is venerated as a Christian saint, whose feast day is 2 May in Western Christianity, 15 May in the Coptic Orthodox Church, and 18 January in the other Eastern Orthodox Churches. He is venerated by the Roman Catholic Church, Oriental and Eastern Orthodox churches, the Lutherans, and the Anglican Communion.

### **Saint Antony in His Desert**

This book takes up the obtrusive problem of visual representation of fiction in contemporary Russian book design. By analyzing a broad variety of book covers, the study offers an absolutely unique material that illustrates a radically changing notion of literature in the transformation of Soviet print culture to a post-Soviet book market. It delivers a profound and critical exploration of Russian visual imaginary of classic, popular, and contemporary prose. Among all the carelessly bungled covers of mass-published post-Soviet series the study identifies gems from experimental designers. By taking a comparative approach to the clash of two formerly separate book cultures, the Western and the Soviet, that results both in a mixture of highbrow and lowbrow forms and in ideological re-interpretations of the literary works, this book contributes to opening an East-West dialogue between the fields of Russian studies, contemporary book and media history, art, design, and visual studies.

## **The Temptation of St. Anthony**

An ambitious novel of ideas set against a phantasmagoric Sydney. ~J. M. Coetzee  
A defrocked priest, Antony Elm, has made his way into a desert outside Alice Springs, where he intends to stay for forty days and forty nights. He is undergoing a crisis of faith and has brought with him the typescript for a book he has failed to finish about a meeting between Albert Einstein and the French philosopher Henri Bergson. This story concerns a crisis of understanding, as Bergson confronts Einstein about the meaning of time. On the back of his typescript Antony writes another story, somehow close to his heart, which concerns two young men traveling to Sydney from Canberra for the first time in the early 1980s. This story about a crisis of love takes place in a single night as the boys encounter temptation, damnation, and salvation in the world of alternative music. Antony becomes increasingly delirious, observing temptations of the flesh and spirit, scribbling in the margins of his two unspooling narratives, awaiting a rescue that may or may not come.

The Chinese system is like no other known to man, now or in history. This book explains how the system works and where it may be moving. Drawing on Chinese and international sources, on extensive collaboration with Chinese scholars, and on the political science of state analysis, the author concludes that under the new leadership of Xi Jinping, the system of government has been transformed into a new regime radically harder and more ideological than the legacy of Deng Xiaoping. China is less strong economically and more dictatorial politically than the world has wanted to believe. By analysing the leadership of Xi Jinping, the meaning of 'socialist market economy', corruption, the party-state apparatus, the reach of the party, the mechanisms of repression, taxation and public services, and state-society relations, the book broadens the field of China studies, as well as the fields of political economy, comparative politics, development, and welfare state studies. 'A new interpretation of the Chinese party-state—shows the advantage that derives from a comparative theorist looking at the Chinese system.' —Tony Saich,

Harvard University 'This is an excellent book which asks important questions about China's future. In a lively and persuasive manner, the author vividly analyses key data in a comparative and theoretical manner. Far and away the best introduction to how the CCP dictatorship works.' —Edward Friedman, University of Wisconsin-Madison 'There is no lack of scholars and pundits abroad who tell us that dictatorship in China is for the greater good. In a timely and engagingly written book, Stein Ringen systematically demolishes all the components of this claim.' —Frank Dikötter, University of Hong Kong 'Stein Ringen shows how the Chinese state has used both fear and material inducements to build a "controlocracy" of a size and complexity unprecedented in world history. Perfect as a dictatorship, but brutal, destructive, and wasteful. The author's encyclopedic understanding of his topic is based on a mastery of relevant scholarship and is delivered in clear, no-nonsense prose that bows to no one. Ideal as a textbook.' —Perry Link, University of California, Riverside 'China is a complex country, and there is a range of reasonable interpretations of its political system. Professor Ringen's interpretation is different than my own, but China watchers need to engage with his thought-provoking and carefully argued assessment. If current trends of repression intensify, less pessimistic analysts will need to recognise that Ringen's analysis may have been prescient.' —Daniel A. Bell, Tsinghua University 'Inspirational and trenchant. Stein Ringen's book is a must-read to understand China's politics, economy, ideology and social control, and its adaptability and challenges under the CCP's rule, especially in the 21st century.' —Teng Biao, Harvard Law School

and New York University 'Stein Ringen's insights as a prominent political scientist enable a powerful examination of the Chinese state in a penetrating analysis that reaches strong conclusions which some will see as controversial. The book is scholarly, objective, and free from ideological partiality or insider bias. Whether one ultimately wishes to challenge or embrace his findings, the book should be read.' —Lina Song, University of Nottingham Click on these links for more information: Blog: <https://thechinesestate.com/> Facebook: <https://www.facebook.com/stein.ringen.7/about>

The biographic text of St. Anthony is presented complete in this edition for the reader's absorption and contemplation. First published in the 4th century A.D., Anthony the Great's biography was authored by Christian Saint Athanasius of Alexandria. Since its release, the book has helped spread the beliefs, practices and arduous faith of Anthony the Great. A significant progenitor of the monastic tradition, Saint Anthony lived an ascetic lifestyle in the arid lands of Egypt. Although not the earliest of religious figures committed to this tradition, through actions and preaching Anthony helped popularise and spread principles that would contribute heavily to the establishment of Christian monasteries in Europe and beyond. One event in St. Anthony's life was his encounter with the supernatural in the remote Egyptian desert. This occurrence, where the otherworldly presence

tried to tempt him from his spartan philosophy of living, is much recreated in Western art and literature.

This is the first collection of critical essays to appear about the Wooster Group. Since the 1970s this groundbreaking, New York-based performance company has led the way in crystallizing the conditions of contemporary stage practice at the intersection of several cultural and artistic traditions. As demonstrated by the assembled critics, each of them an authority in the field, these traditions extend into the past as well as into the future, through the Wooster Group's impact on the latest generation of performance artists. The company's consequent institutionalization is posited and challenged in the essays constituting Part I of the collection. Part II tackles the work-in-progress, mapping its idiomatic stage vocabulary and providing case studies, ranging from Frank Dell's *The Temptation of St. Antony* to *To You, The Birdie!* (Phèdre). Part III presents productions by kindred artists such as Elevator Repair Service, the Builders Association, Cannon Company, and Richard Maxwell. Lavishly illustrated with photographs, this collection should prove invaluable to anyone with an interest in the current theatrical scene and its place in the wider institutional, artistic, and historical contexts.

Today, not only do the best artists of our time frequently make prints, some of the most highly regarded artworks are prints. More editions are being produced by more artists in greater diversity than at any point in history. This book provides for the first time an authoritative critical survey of printed art over the last four decades - an indispensable reference for students, scholars, art professionals, artists, collectors and would-be collectors, examining and illustrating the work of more than 170 artists from 11 countries. Starting from the foundation of Universal Limited Art Editions in 1957, *The Contemporary Print* explores thoroughly the differing traditions of postwar Europe and America: the brilliant experiments of Johns and Rauschenberg; the Pop explosion; the Multiple; Op art, Minimalism and Serialism; Conceptual artists exploiting the language of photography; the rejection of mechanical slickness in the 1970s; the revival of Expressionism and figuration in the 1980s; and the new energies with which the print continues to influence and intrigue us today, expanding the ways in which we think about art. With a fully detailed catalogue, workshop histories, biographies of all the most prominent artists, and a glossary of print terms, this is a unique and invaluable guide - one of the few essential books for anyone concerned with contemporary art.
