The essential guide to the theory and application of the Social Change Model Leadership for a Better World provides an approachable introduction to the Social Change Model of Leadership Development (SCM), giving students a real-world context through which to explore the seven C's of leadership for social change as well as approaches to socially responsible leadership. From individual, group, and community values through the mechanisms of societal change itself, this book provides fundamental coverage of this increasingly vital topic. Action items, reflection, and discussion questions throughout encourage students to think about how these concepts apply in their own lives. The Facilitator's Guide includes a wealth of activities, assignments, discussions, and supplementary resources to enrich the learning experience whether in class or in the co-curriculum. This new second edition includes student self-assessment rubrics for each element of the model and new discussion on the critical roles of leadership self-efficacy, social perspective, and social justice perspectives. Content is enriched with research on how this approach to leadership is developed, and two new chapters situate the model in a broader understanding of leadership and in applications of the model. The Social Change Model is the most widely-used leadership model for college students, and has shaped college leadership curricula at schools throughout the U.S. and other countries including a translation in Chinese. This book provides a comprehensive exploration of the model, with a practical, relevant approach to real-

world issues. Explore the many facets of social change and leadership Navigate group dynamics surrounding controversy, collaboration, and purpose Discover the meaning of citizenship and your commitment to the greater good Become an agent of change through one of the many routes to a common goal The SCM is backed by 15 years of research, and continues to be informed by ongoing investigation into the interventions and environments that create positive leadership development outcomes. Leadership for a Better World provides a thorough, well-rounded tour of the Social Change Model, with guidance on application to real-world issues. Please note that The Social Change Model: Facilitating Leadership Development (978-1-119-24243-7) is intended to be used as a Facilitator's Guide to Leadership for a Better World, 2nd Edition in seminars, workshops, and college classrooms. You'll find that, while each book can be used on its own, the content in both is also designed for use together. Kerr's first novel—hailed by the New York Times as a “timely, compelling,” and “brilliantly funny” look at adolescence and friendship It was bad enough that they had to move to Brooklyn—Brooklyn Heights, as Tucker Woolf's dad instructs him to tell everyone after he loses his job. Now his father has suddenly developed an allergy to Tucker's cat, Nader, a nine-month-old calico Tucker found underneath

As Tucker starts paying regular visits to Dinky's house to check up on Nader, his life begins to change. Dinky introduces Tucker to her strange cousin, Natalia Line, a compulsive rhymer whom Tucker finds fascinating. And enter P. John Knight, who's fat like Dinky . . . and now, like Nader. ### **Project: Hero Atlantis Under Attack**

Often the most recognized, even brutal, events in American history are assigned a bifurcated public narrative. We divide historical and cultural life into two camps, often segregated by a politicized, racially divided "Color Line." But how do we privately experience the most troubling features of American civilization? Where is the Color Line in the mind, in the body, between bodies, between human beings? Ed Pavlic's *Visiting Hours at the Color Line*, a 2012 National Poetry Series winner, attempts to complicate this black-and-white, straight-line feature of our collective imagination, and to map its nonlinear, deeply colored timbres and hues. From the daring prose poem to the powerful free verse, Pavlic's lines are musically infused, bearing tones of soul, R&B, and jazz. Meanwhile, joining the influence of James Baldwin with a postmodern consciousness the likes of Samuel Beckett, Pavlic

tracks the experiences of American characters through situations both mundane and momentous, and exposes the many textures of this social, historical world as it seeps into the private dimensions of our lives. The resulting poems are intense—at times even violent—ambitious, and psychological, making *Visiting Hours at the Color Line* a poetic tour de force, by one of the century's most acclaimed American poets.

“[A] remarkably revealing history....This well-researched, opinionated account does a fine job of filling a surprisingly empty historical niche.” —Publishers Weekly

Citizen-in-Chief, *The Second Lives of the American Presidents*, is a smartly researched, surprising, often witty, and always revealing look at former presidents from George Washington to George W. Bush. Authors Leonard Benardo and Jennifer Weiss offer readers entertaining true stories of the radical turns, provocative rehabilitations, and tragic trajectories of presidential lives after the White House. Washington Post columnist Richard Cohen calls *Citizen-in-Chief*, “an engrossing book, Benardo and Weiss tell a fascinating tale,” and he properly states that where our nation’s leaders went after leading is often “more interesting than the presidency itself.”
