Supernatural Transportation is my personal testimony of the adventures God is taking me on as He teaches me about this reality of moving through space, time and dimension for His purposes and His Kingdom. It is my sincere prayer that as you read this book it inspires you to say "Yes Lord" I will do what you ask me to do and go where you tell me to go. This book analyzes the application of the legal principle of non-discrimination in the context of energy network operation. Since the early 1990s, the duty not to discriminate has applied to energy network operators, in order to achieve a liberalized European energy market in which European consumers have a free and real choice of energy supplier. The book provides guidance to those working in the context of the non-discrimination obligation, such as energy network operators, regulatory authorities, national courts, and other energy market players, as well as those studying the rules for (academic) research purposes. The book's conclusions serve as a tool for critical consideration and offer suggestions for improvements to the legal framework and its application on a European, as well as a national, level.

Several questions are answered, including why energy network operators have a non-discrimination obligation in the context of energy market liberalization, how European law has tried to remove and control the discrimination problem since the early 1990s, and when different treatment of energy network users amounts to 'forbidden' discrimination. The book's conclusions are underpinned by comparisons with competition law, public procurement law, and telecommunications law, as well as a case study on how energy network operators and regulators in several Member States currently interpret and apply the non-discrimination obligation. In spite of Cyril Ramaphosa's "new dawn"; there are powerful forces in the ruling party that risk losing everything if corruption and state capture finally do come to an end. At the centre of the old guard's fightback efforts is Ace Magashule; a man viewed by some as South Africa's most dangerous politician. In this explosive book; investigative journalist Pieter-Louis Myburgh ventures deeper than ever before into Magashule's murky dealings; from his time as a struggle activist in the 1980s to his powerful rule as premier of the Free State province for nearly a decade; and his rise to one of the ANC's most influential positions. Sifting through heaps of records; documents and exclusive source interviews; Myburgh explores Magashule's relationship with the notorious Gupta family and other tender moguls; investigates government projects costing billions that enriched his friends and family but failed the poor; reveals how he was about to be arrested by the Scorpions before their disbandment in the late 2000s; and exposes the methods used to keep him in power in the Free State and to secure him the post of ANC secretary-general. Most tellingly; Myburgh pieces together a

pack of leaked emails and documents to reveal shocking new details on a massive Free State government contract and Magashule's dealings with a businessman who was gunned down in Sandton in 2017. These files seem to lay bare the methods of a man who usually operated without leaving a trace. Gangster State is an unflinching examination of the ANC's top leadership in the post-Jacob Zuma era; one that should lead readers to a disconcerting conclusion: When it comes to the forces of capture; South Africa is still far from safe.
