### **My Home**

Twelve years ago Matthew "the Rocket" Rising had it all. Married to his high school sweetheart and one of the winningest quarterbacks in the history of college football, he was the number one NFL draft pick. But on the night of the draft, he plummeted from the pinnacle of esteem. Falsely accused of a heinous crime with irrefutable evidence, it seemed in an instant all was lost--his reputation, his career, his freedom, and most devastatingly, the love of his life. Having served his sentence and never played a down of professional football, Matthew leaves prison with

one goal--to find his wife, Audrey, whom no one has seen since the trial. He returns to an unwelcoming reception from his Gardi, Georgia, hometown to learn that Audrey has taken shelter from the media with the nuns at a Catholic school. There she has discovered a young man with the talent to achieve the football career Matthew should have had. All he needs is the right coach. Although helping the boy means Matthew violates the conditions of his release and--if discovered--reincarceration for life, he'll take the chance with hope of winning back Audrey's love.

### **Statistical Physics**

As a young child, Jonathan Watts believed if everyone in China jumped at the same time, the earth would be shaken off its axis, annihilating mankind. Now, more than thirty years later, as a correspondent for The Guardian in Beijing, he has discovered it is not only foolish little boys who dread a planet-shaking leap by the world's most populous nation. When a Billion Chinese Jump is a road journey into the future of our species. Traveling from the mountains of Tibet to the

deserts of Inner Mongolia via the Silk Road, tiger farms, cancer villages, weather-modifying bases, and eco-cities, Watts chronicles the environmental impact of economic growth with a series of gripping stories from the country on the front line of global development. He talks to nomads and philosophers, entrepreneurs and scientists, rural farmers and urban consumers, examining how individuals are trying to adapt to one of the most spectacular bursts of change in human history, then poses a question that will affect all of our lives: Can China find a new way forward or is this giant nation doomed to magnify the mistakes that have already taken humanity to the brink of disaster?

Buddhism teaches that enlightenment is our natural state; the problem is that we do not recognize this state, owing to the mind's confusion about its true nature. Thinley Norbu presents the Buddhist view in a way meant to clear up misconceptions and awaken the reader's innate wisdom. Thinley Norbu is a distinguished teacher of the Nyingma lineage of Tibetan Buddhism and the author of *The Small Golden Key* and *Magic Dance*.

Shaw The Physics of Stars Second Edition A. C. Phillips Computing for Scientists R. J. Barlow and A. R. Barnett Statistical Physics, Second Edition develops a unified treatment of statistical mechanics and thermodynamics, which emphasises the statistical nature of the laws of thermodynamics and the atomic nature of matter. Prominence is given to the Gibbs distribution, leading to a simple treatment of quantum statistics and of chemical reactions. Undergraduate students of physics and related sciences will find this a stimulating account of the basic physics and its applications. Only an elementary knowledge of kinetic theory and atomic physics, as well as the rudiments of quantum theory, are presupposed for an understanding of this book. Statistical Physics, Second Edition features: A fully integrated treatment of thermodynamics and statistical mechanics. A flow diagram allowing topics to be studied in different orders or omitted altogether. Optional "starred" and highlighted sections containing more advanced and specialised material for the more ambitious reader. Sets of problems at the end of each chapter to help student understanding. Hints for solving the problems are given in an Appendix.

free or make him a slave forever. In search of the Goddess' final location Marc travels to Borneo, into the heart of a jungle and closer to freedom than he's ever been. However he's starting to question in which way freedom really lies - An adventure in dominance, submission and mind control.

### **Nervous Notes**

Tom Peters--brilliant, original, and perhaps the most inspiring and listened-to business thinker of our time--has a lot on his mind these days. And he wants to share it in *The Circle of Innovation*. The world of business is in a permanent state of flux, he argues, a state of chaos in which constant innovation is the only survival strategy--for the individual and for the organization. And he presents here a lifesaving handbook--both provocative and practical--designed to turn any organization into a perpetual innovation machine. In 400 seminars in 47 states and 22 countries in the last five years, Peters has reexamined, refined, and reinvented his views on innovation. Now he brings those seminars--and his passion--to the reader in a landmark book. It is meant, he writes, to both "terrify" and "enlighten." These are "times of matchless peril for those who fail to grasp the netteland times of matchless opportunity for those who do." To keep us alert, limber, and ready for action, he provokes and cajoles in chapter after chapter. Among his institutions and revelations: *We Are All Michelangelos*. He shows how to transform every "jobholder" into a full-fledged businessperson. *All Value Comes from the Professional Services*. How

to convert sluggish staff units into Vital Centers of Intellectual Capital Accumulation. The System is the Solution. How to build great systems--which go far beyond nuts and bolts. Create Waves of Lust. Quality is not the automatic advantage it recently was. There is a pressing need to reverse the rising tide of product and service "commoditization." Tommy Hilfiger Knows. In a crowded marketplace, branding is far more important than ever before. It's a Woman's World. How to capitalize on the fact that women purchase/are purchasing agents for well over half of U.S. commercial and consumer goods. Little Things Are the Only Things. As the Blight of Sameness encroaches on market after market, design is often the best tool in services or manufacturing for sustainable differentiation. We're Here to Live Life Out Loud. Why transformational leaders of the future must have laser-like focus, tell the truth, and live on the lunatic fringe. The hallmarks of Tom Peters legend are an insatiable curiosity, an agile intellect, a pragmatic perspective, and an uncanny ability to gauge the global zeitgeist. These qualities are all brought to bear as Peters sets out to engage, enrage, and ultimately empower his readers, amid forces that are reshaping not only business but every aspect of human experience.

### **Keep Calm and Let the Dietitian Handle It**

After ten years living abroad, Tarquin Hall wanted to return to his native London. Lured by his nostalgia for a leafy suburban childhood spent in south-west London, he returned with his Indian-born, American fiancée in tow. But, priced out of the housing market,

they found themselves living not in a townhouse, oozing Victorian charm, but in a squalid attic above a Bangladeshi sweatshop on London's Brick Lane. A grimy skylight provided the only window on their new world: a filthy, noisy street where drug dealers and prostitutes peddled their wares and tramps urinated on the pavements. At night, traffic lights lit up the ceiling and police sirens wailed into the early hours. Yet, as Hall got to know Brick Lane, he discovered beneath its unlovely surface an inner world where immigrants and asylum seekers struggle to better themselves and dream of escape. *Salaam Brick Lane* is a journey of discovery by an outsider in his own native city. It offers an explicit glimpse of the underbelly of London's most infamous quarter, the real-life world of Monica Ali's bestselling novel.
