"Silly Daddy is the true life story that captures the struggles and victories of what it means to give life your all and come up short. Illinois cartoonist Joe Chiappetta turns autobiographical storytelling into a family odyssey of road trips, break-ups, romance, sci-fi adventure, big laughs, deep thoughts, and redemption"--Publisher's

description.

### **El Mundo Sin Superman**

An unvarnished, unauthorized, behind-the-scenes account of one of the most dominant pop cultural forces in contemporary America Operating out of a tiny office on Madison Avenue in the early 1960s, a struggling company called Marvel Comics presented a cast of brightly costumed characters distinguished by smart banter and compellingly human flaws. Spider-Man, the Fantastic Four, Captain America, the Incredible Hulk, the Avengers, Iron Man, Thor, the X-Men, Daredevil—these superheroes quickly won children's hearts and sparked the imaginations of pop artists, public intellectuals, and campus radicals. Over the course of a half century, Marvel's epic universe would become the most elaborate fictional narrative in history and serve as a modern American mythology for millions of readers. Throughout this decades-long journey to becoming a multibillion-dollar enterprise, Marvel's identity has continually shifted, careening between scrappy underdog and corporate behemoth. As the company has weathered Wall Street machinations, Hollywood failures, and the collapse of the comic book market, its characters have been passed along among generations of editors, artists, and writers—also known as the celebrated Marvel "Bullpen." Entrusted to carry on tradition, Marvel's contributors—impoverished child prodigies, hallucinating peaceniks, and mercenary careerists among

them—struggled with commercial mandates, a fickle audience, and, over matters of credit and control, one another. For the first time, Marvel Comics reveals the outsized personalities behind the scenes, including Martin Goodman, the self-made publisher who forayed into comics after a get-rich-quick tip in 1939; Stan Lee, the energetic editor who would shepherd the company through thick and thin for decades; and Jack Kirby, the World War II veteran who'd co-created Captain America in 1940 and, twenty years later, developed with Lee the bulk of the company's marquee characters in a three-year frenzy of creativity that would be the grounds for future legal battles and endless debates. Drawing on more than one hundred original interviews with Marvel insiders then and now, Marvel Comics is a story of fertile imaginations, lifelong friendships, action-packed fistfights, reformed criminals, unlikely alliances, and third-act betrayals— a narrative of one of the most extraordinary, beloved, and beleaguered pop cultural entities in America's history.

### **Dorothy and the Wizard in Oz**

The guide every comic collector must have, with all of the updated facts and figures from the ultimate authority on comic book values. And, with its mini-dimensions, it's easy to carry at all times for quick reference. Includes a schedule of comic conventions.

## Read Book Wizard Comic Book Price Guide

On the surface, the relationship between comics and the 'high' arts once seemed simple; comic books and strips could be mined for inspiration, but were not themselves considered legitimate art objects. Though this traditional distinction has begun to erode, the worlds of comics and art continue to occupy vastly different social spaces. *Comics Versus Art* examines the relationship between comics and the most important institutions of the art world; including museums, auction houses, and the art press. Bart Beaty's analysis centres around two questions: why were comics excluded from the history of art for most of the twentieth century, and what does it mean that comics production is now more closely aligned with the art world? Approaching this relationship for the first time through the lens of the sociology of culture, Beaty advances a completely novel approach to the comics form.

### **Comic Book Price Guide**

The bible of the comic book industry is updated for 2002 with Web site information, tips about grading and caring for comics, and more than 1,500 black-and-white photos.

### **American Comic Book Chronicles: The 1990s**

36 Chambers 9 Rings 1 Wu-Tang Clan! This series is loosely based on the mega-popular hip-hop group, the Wu-Tang Clan. A fantasy created from the harsh reality of life on the streets where only warriors survive. There once lived a day when mysticism and science blended into the balance of yin and yang, and men still possessed the memory that they were more than simple earthbound mammals. Out of those murky winds arose a group of nomadic warriors who banded together for survival; they became the Wu-Tang Clan. Nine Moorish warriors, martial artists of the highest calibre, individually fearless, unstoppable as a team. The known world became their kingdom, and morality became their highest cause. With them,

they would carry the ark of knowledge and the spark for future remembrance.

### **The Nine Rings of Wu-Tang**

Since 1970, only one comic book price guide has been dubbed "the Bible" for casual and die-hard collectors alike. While others have come and gone, The Overstreet Comic Book Price Guide has maintained its stature as the premiere reference source for the hobby, covering more than a century of comic book history. Up-to-date directory of comic book fan websites Tips about collecting, grading and caring for your comics All-new additions to Overstreet Hall of Fame, key sales lists, and exhaustive indices And much, much

more!

### **The Overstreet Comic Book Price Guide**

The 1990s was the decade when Marvel Comics sold 8.1 million copies of an issue of the X-Men, saw its superstar creators form their own company, cloned Spider-Man, and went bankrupt. The 1990s was when Superman died, Batman had his back broken, and the runaway success of Neil Gaiman's Sandman led to DC Comics' Vertigo line of adult comic books. It was the decade of gimmicky covers, skimpy costumes, and mega-crossovers. But most of all, the 1990s was the decade when companies like Image, Valiant and Malibu published million-selling comic books before the industry experienced a shocking and rapid collapse. *American Comic Book Chronicles: The 1990s* is a year-by-year account of the comic book industry during the Bill Clinton years. This full-color hardcover volume documents the comic book industry's most significant publications, most notable creators, and most impactful trends from that decade. Written by Keith Dallas and Jason Sacks.

A union list of serials commencing publication after Dec. 31, 1949.

### **Sabretooth**

A comprehensive introduction to the comic arts From the introduction by Paul Levitz "If ever there was a medium characterized by its unexamined self-expression, it's comics. For decades after the medium's birth, it was free of organized critical analysis, its creators generally disinclined to self-analysis or formal documentation. The average reader didn't know who created the comics, how or why . . . and except for a uniquely destructive period during America's

witch-hunting of the 1950s, didn't seem to care. As the medium has matured, however, and the creativity of comics began to touch the mainstream of popular culture in many ways, curiosity followed, leading to journalism and eventually, scholarship, and so here we are." The Power of Comics is the first introductory textbook for comic art studies courses. Lending a broader understanding of the medium and its communication potential, it provides students with a coherent and comprehensive explanation of comic books and graphic novels, including coverage of their history and their communication techniques, research into their meanings and effects and an overview of industry practices and fan culture. Co-authors Randy Duncan and Matthew J. Smith draw on their own years of experience teaching comics studies courses and the scholarly literature across several disciplines to create a text with the following features: Discussion questions for each chapter Activities to engage readers Recommended reading suggestions Over 150 illustrations Bibliography Glossary The Power of Comics deals exclusively with comic books and graphic novels. One reason for this focus is that no one text can hope to do justice to both strips and books; there is simply too much to cover. Preference is given to comic books because in their longer form, the graphic novel, they have the greatest potential for depth and complexity of expression. As comic strips shrink in size and become more inane in content, comic books are becoming a serious art form.

### **The Power of Comics**

They're the slacker super-heroes who've taken the world by storm! Created by science, this team of super-powered teenagers battles for survival in a world seemingly set against them.

### **Adventures Into the Unknown Archives**

### **Mad about TV**

A lavishly illustrated guide for collectors and fans provides a thorough look inside the world of comics from Marvel to DC, describing its many characters and creators, and relating its unique and cultural history.
