History for the IB Diploma: Causes, Practices and Effects of Wars

A Primer for Teaching African History is a guide for college and high school teachers who are teaching African history for the first time, for experienced teachers who want to reinvigorate their courses, for those who are training future teachers to prepare their own syllabi, and for teachers who want to incorporate African history into their world history courses. Trevor R. Getz offers design principles aimed at facilitating a classroom experience that will help students navigate new knowledge, historical skills, ethical development, and worldviews. He foregrounds the importance of acknowledging and addressing student preconceptions about Africa, challenging chronological approaches to history, exploring identity and geography as ways to access historical African perspectives, and investigating the potential to engage in questions of ethics that studying African history provides. In his discussions of setting goals, pedagogy, assessment, and syllabus design, Getz draws readers into the process of thinking consciously and strategically about designing courses on African history that will challenge students to think critically about Africa and the discipline of history.

The Hello Girls

"Discusses and explains the events of the 1920s and 1930s that led to the outbreak of the Second World War"--Provided by publisher.

5 Steps to a 5: AP World History 2018, Edition

5 Steps to a 5: AP World History 2018, Elite Student Edition

When a Serbian-backed assassin gunned down Archduke Franz Ferdinand in late June 1914, the world seemed unmoved. Even Ferdinand's own uncle, Franz Josef I, was notably ambivalent about the death of the Hapsburg heir, saying simply, "It is God's will." Certainly, there was nothing to suggest that the episode would lead to conflict—much less a world war of such massive and horrific proportions that it would fundamentally reshape the course of human events. As acclaimed historian Sean McMeekin reveals in July 1914, World War I might have been avoided entirely had it not been for a small group of statesmen who, in the month after the assassination, plotted to use Ferdinand's murder as the trigger for a long-awaited showdown in Europe. The primary culprits, moreover, have long escaped blame. While most accounts of the war's outbreak place the bulk of responsibility on German and Austro-Hungarian militarism, McMeekin draws on surprising new evidence from archives across Europe to show that the worst offenders were actually to be found in Russia and France, whose belligerence and duplicity ensured that war was inevitable. Whether they plotted for war or rode the whirlwind nearly blind, each of the men involved—from Austrian Foreign Minister Leopold von Berchtold and German Chancellor Bethmann Hollweg

to Russian Foreign Minister Sergei Sazonov and French president Raymond Poincaré—sought to capitalize on the fallout from Ferdinand's murder, unwittingly leading Europe toward the greatest cataclysm it had ever seen. A revolutionary account of the genesis of World War I, July 1914 tells the gripping story of Europe's countdown to war from the bloody opening act on June 28th to Britain's final plunge on August 4th, showing how a single month—and a handful of men—changed the course of the twentieth century.

A Guidebook for Teaching United States History

Get ready to ace your AP World History Exam with this easy-to-follow, multi-platform study guide 5 Steps to a 5: AP World History introduces an easy to follow, effective 5-step study plan to help you build the skills, knowledge, and test-taking confidence you need to achieve a high score on the exam. This wildly popular test prep guide matches the latest course syllabus and the latest exam. You'll get online help, four full-length practice tests (two in the book and two online), detailed answers to each question, study tips, information on how the exam is scored, and much more. Because this guide is accessible in print and digital formats, you can study online, via your mobile device, straight from the book, or any combination of the three. 5 Steps to a 5: AP World History 2018 features:

- New: Access to the entire Cross-Platform Prep Course in World History
- 4 Practice Exams (2 in the book + 2 online)
- An interactive, customizable AP

Planner app to help you organize your time • Powerful analytics you can use to assess your test readiness • Flashcards, games, and more

The Origins of the First World War

Germany's Aims in the First World War

In 1918 the U.S. Army Signal Corps sent 223 women to France to help win World War I. Elizabeth Cobbs reveals the challenges these patriotic young women

faced in a war zone where male soldiers resented, wooed, mocked, saluted, and ultimately celebrated them. Back on the home front, they fought the army for veterans' benefits and medals, and won.

The Harlem Hellfighters

Abina and the Important Men

This unique volume offers a definitive new history of European economies at war from 1914 to 1918. It studies how European economies mobilised for war, how existing economic institutions stood up under the strain, how economic development influenced outcomes and how wartime experience influenced post-war economic growth. Leading international experts provide the first systematic comparison of economies at war between 1914 and 1918 based on the best available data for Britain, Germany, France, Russia, the USA, Italy, Turkey, Austria-Hungary and the Netherlands. The editors' overview draws some stark lessons about the role of economic development, the importance of markets and the damage done by nationalism and protectionism. A companion volume to the acclaimed *The Economics of World War II*, this is a major contribution to our understanding of total war.

Spirits of the Somme

The catastrophe of the First World War, and the destruction, revolution, and enduring hostilities it

wrought, make the issue of its origins a perennial puzzle. Since World War II, Germany has been viewed as the primary culprit. Now, in a major reinterpretation of the conflict, Sean McMeekin rejects the standard notions of the war's beginning as either a Germano-Austrian preemptive strike or a "tragedy of miscalculation." Instead, he proposes that the key to the outbreak of violence lies in St. Petersburg. It was Russian statesmen who unleashed the war through conscious policy decisions based on imperial ambitions in the Near East. Unlike their civilian counterparts in Berlin, who would have preferred to localize the Austro-Serbian conflict, Russian leaders desired a more general war so long as British participation was assured. The war of 1914 was launched at a propitious moment for harnessing the might of Britain and France to neutralize the German threat to Russia's goal: partitioning the Ottoman Empire to ensure control of the Straits between the Black Sea and the Mediterranean. Nearly a century has passed since the guns fell silent on the western front. But in the lands of the former Ottoman Empire, World War I smolders still. Sunnis and Shiites, Arabs and Jews, and other regional antagonists continue fighting over the last scraps of the Ottoman inheritance. As we seek to make sense of these conflicts, McMeekin's powerful exposé of Russia's aims in the First World War will illuminate our understanding of the twentieth century.

The Economics of World War I

In a new edition featuring a new preface, *A World of*

Arms remains a classic of global history. Widely hailed as a masterpiece, this volume remains the first history of World War II to provide a truly global account of the war that encompassed six continents. Starting with the changes that restructured Europe and its colonies following the First World War, Gerhard Weinberg sheds new light on every aspect of World War II. Actions of the Axis, the Allies, and the Neutrals are covered in every theater of the war. More importantly, the global nature of the war is examined, with new insights into how events in one corner of the world helped affect events in often distant areas.

Gas and Flame in World War I

A World at Arms

A unique collection of hundreds of diplomatic and military documents on the origins of WWI: newly-discovered archival sources as well as documents not previously available in English. It includes a comprehensive scholarly introduction covering the most controversial issues in the debate on the origins of WWI on the eve of the centenary.

The Pity of War

When war broke out in Europe in 1914, it surprised a European population enjoying the most beautiful summer in memory. For nearly a century since, historians have debated the causes of the war. Some have cited the assassination of Archduke Franz

Ferdinand; others have concluded it was unavoidable. In Europe's Last Summer, David Fromkin provides a different answer: hostilities were commenced deliberately. In a riveting re-creation of the run-up to war, Fromkin shows how German generals, seeing war as inevitable, manipulated events to precipitate a conflict waged on their own terms. Moving deftly between diplomats, generals, and rulers across Europe, he makes the complex diplomatic negotiations accessible and immediate. Examining the actions of individuals amid larger historical forces, this is a gripping historical narrative and a dramatic reassessment of a key moment in the twentieth-century.

The Fourteen Points Speech

What makes wars drag on and why do they end when they do? Here H. E. Goemans brings theoretical rigor and empirical depth to a long-standing question of securities studies. He explores how various government leaders assess the cost of war in terms of domestic politics and their own postwar fates. Goemans first develops the argument that two sides will wage war until both gain sufficient knowledge of the other's strengths and weaknesses so as to agree on the probable outcome of continued war. Yet the incentives that motivate leaders to then terminate war, Goemans maintains, can vary greatly depending on the type of government they represent. The author looks at democracies, dictatorships, and mixed regimes and compares the willingness among leaders to back out of wars or risk the costs of continued

warfare. Democracies, according to Goemans, will prefer to withdraw quickly from a war they are not winning in order to appease the populace. Autocracies will do likewise so as not to be overthrown by their internal enemies. Mixed regimes, which are made up of several competing groups and which exclude a substantial proportion of the people from access to power, will likely see little risk in continuing a losing war in the hope of turning the tide. Goemans explores the conditions and the reasoning behind this "gamble for resurrection" as well as other strategies, using rational choice theory, statistical analysis, and detailed case studies of Germany, Britain, France, and Russia during World War I. In so doing, he offers a new perspective of the Great War that integrates domestic politics, international politics, and battlefield developments.

Causes of World War II

One of The New York Times Book Review's 10 Best Books of the Year Winner of the Los Angeles Times Book Prize (History) *The Sleepwalkers: How Europe Went to War in 1914* is historian Christopher Clark's riveting account of the explosive beginnings of World War I. Drawing on new scholarship, Clark offers a fresh look at World War I, focusing not on the battles and atrocities of the war itself, but on the complex events and relationships that led a group of well-meaning leaders into brutal conflict. Clark traces the paths to war in a minute-by-minute, action-packed narrative that cuts between the key decision centers in Vienna, Berlin, St. Petersburg, Paris, London, and

Belgrade, and examines the decades of history that informed the events of 1914 and details the mutual misunderstandings and unintended signals that drove the crisis forward in a few short weeks. Meticulously researched and masterfully written, Christopher Clark's *The Sleepwalkers* is a dramatic and authoritative chronicle of Europe's descent into a war that tore the world apart.

International Perspectives on Teaching Rival Histories

World War I has been called the first man-made conflict in history. Learn why World War I began in 1914 along with major battles including the Battle of Tannenberg, Battle of Verdun and the Battle of the Somme. Our resource provides ready-to-use information and activities for remedial students in grades five to eight. Take your students from the background and causes of the war to its final outcomes. Discover who the major players were and how and why the U.S. entered the War. Included also is Woodrow Wilson's fascinating Fourteen Points clearly explained. Give your students a clear understanding between Nationalism, Imperialism and Militarism along with the conventional methods and weapons of warfare for that period. All of our content is aligned to your State Standards and are written to Bloom's Taxonomy. An ideal resource for test prep.

5 Steps to a 5: AP World History 2019 Elite Student Edition

Considered by many the greatest war novel of all time, *All Quiet on the Western Front* is Erich Maria Remarque's masterpiece of the German experience during World War I. I am young, I am twenty years old; yet I know nothing of life but despair, death, fear, and fatuous superficiality cast over an abyss of sorrow. . . . This is the testament of Paul Bäumer, who enlists with his classmates in the German army during World War I. They become soldiers with youthful enthusiasm. But the world of duty, culture, and progress they had been taught breaks in pieces under the first bombardment in the trenches. Through years of vivid horror, Paul holds fast to a single vow: to fight against the principle of hate that meaninglessly pits young men of the same generation but different uniforms against one another . . . if only he can come out of the war alive. "The world has a great writer in Erich Maria Remarque. He is a craftsman of unquestionably first rank, a man who can bend language to his will. Whether he writes of men or of inanimate nature, his touch is sensitive, firm, and sure."—The New York Times Book Review

A Primer for Teaching African History

The Red Battle Flyer

This volume in the *Problems in European Civilization* series presents the diversity of viewpoints held by the field's most eminent historians. The editor accompanies the essays and documents with his own essay, providing historical context and insights on

each problem discussed.

World War I, Grades 6 - 12

In *The Pity of War*, Niall Ferguson makes a simple and provocative argument: that the human atrocity known as the Great War was entirely England's fault. Britain, according to Ferguson, entered into war based on naïve assumptions of German aims—and England's entry into the war transformed a Continental conflict into a world war, which they then badly mishandled, necessitating American involvement. The war was not inevitable, Ferguson argues, but rather the result of the mistaken decisions of individuals who would later claim to have been in the grip of huge impersonal forces. That the war was wicked, horrific, inhuman, is memorialized in part by the poetry of men like Wilfred Owen and Siegfried Sassoon, but also by cold statistics. More British soldiers were killed in the first day of the Battle of the Somme than Americans in the Vietnam War; indeed, the total British fatalities in that single battle—some 420,000—exceeds the entire American fatalities for both World Wars. And yet, as Ferguson writes, while the war itself was a disastrous folly, the great majority of men who fought it did so with enthusiasm. Ferguson vividly brings back to life this terrifying period, not through dry citation of chronological chapter and verse but through a series of brilliant chapters focusing on key ways in which we now view the First World War. For anyone wanting to understand why wars are fought, why men are willing to fight them, and why the world is as it is today, there is no sharper nor more stimulating guide than

Niall Ferguson's The Pity of War.

The Anzac Book

The 1st of July 1916, the opening day of the Battle of the Somme, was the blackest day in the history of the British Army. 60,000 men became casualties on that one day alone. In a major new documentary film premiering on the Discovery Channel next year, Emmy Award winning film maker Bob Carruthers returns to the battlefield on 1st July and retraces the events which unfolded on that disastrous day. Drawing extensively on rare film and photographs from both British and German sources, the spirit of the men who fought and died on that day is beautifully evoked by these powerful and haunting images from 1916. The film also reveals how the sacrifice of the men of the Somme is being honoured today by the work of the historians and enthusiasts who strive to increase our understanding of the battle and to commemorate the memory of that terrible day. This is the companion book to the documentary film and is written by well-known author and film maker Bob Carruthers.

History Gr11 T/g

In a monumental history of WWI, Germany's leading historian of the first great 20th-century catastrophe explains the war's origins and course, revealing how profoundly it shaped the world to come. Jörn Leonhard treats the clash of arms with a sure feel for grand strategy, the tactics of arms and attrition, and the

grim fate of frontline soldiers.

Pandora's Box

NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • The Economist • The Christian Science Monitor • Bloomberg Businessweek • The Globe and Mail From the bestselling and award-winning author of *Paris 1919* comes a masterpiece of narrative nonfiction, a fascinating portrait of Europe from 1900 up to the outbreak of World War I. The century since the end of the Napoleonic wars had been the most peaceful era Europe had known since the fall of the Roman Empire. In the first years of the twentieth century, Europe believed it was marching to a golden, happy, and prosperous future. But instead, complex personalities and rivalries, colonialism and ethnic nationalisms, and shifting alliances helped to bring about the failure of the long peace and the outbreak of a war that transformed Europe and the world. *The War That Ended Peace* brings vividly to life the military leaders, politicians, diplomats, bankers, and the extended, interrelated family of crowned heads across Europe who failed to stop the descent into war: in Germany, the mercurial Kaiser Wilhelm II and the chief of the German general staff, Von Moltke the Younger; in Austria-Hungary, Emperor Franz Joseph, a man who tried, through sheer hard work, to stave off the coming chaos in his empire; in Russia, Tsar Nicholas II and his wife; in Britain, King Edward VII, Prime Minister Herbert Asquith, and British admiral Jacky Fisher, the fierce advocate of naval reform who

entered into the arms race with Germany that pushed the continent toward confrontation on land and sea. There are the would-be peacemakers as well, among them prophets of the horrors of future wars whose warnings went unheeded: Alfred Nobel, who donated his fortune to the cause of international understanding, and Bertha von Suttner, a writer and activist who was the first woman awarded Nobel's new Peace Prize. Here too we meet the urbane and cosmopolitan Count Harry Kessler, who noticed many of the early signs that something was stirring in Europe; the young Winston Churchill, then First Lord of the Admiralty and a rising figure in British politics; Madame Caillaux, who shot a man who might have been a force for peace; and more. With indelible portraits, MacMillan shows how the fateful decisions of a few powerful people changed the course of history. Taut, suspenseful, and impossible to put down, *The War That Ended Peace* is also a wise cautionary reminder of how wars happen in spite of the near-universal desire to keep the peace. Destined to become a classic in the tradition of Barbara Tuchman's *The Guns of August*, *The War That Ended Peace* enriches our understanding of one of the defining periods and events of the twentieth century. Praise for *The War That Ended Peace* "Magnificent . . . The War That Ended Peace will certainly rank among the best books of the centennial crop."—*The Economist* "Superb."—*The New York Times Book Review* "Masterly . . . marvelous . . . Those looking to understand why World War I happened will have a hard time finding a better place to start."—*The Christian Science Monitor* "The debate over the war's origins has raged for years. Ms. MacMillan's

explanation goes straight to the heart of political fallibility. . . . Elegantly written, with wonderful character sketches of the key players, this is a book to be treasured.”—The Wall Street Journal “A magisterial 600-page panorama.”—Christopher Clark, London Review of Books

5 Steps to a 5: AP World History: Modern 2021

This Squid Ink Classic includes the full text of the work plus MLA style citations for scholarly secondary sources, peer-reviewed journal articles and critical essays for when your teacher requires extra resources in MLA format for your research paper.

Europe's Last Summer

War and Punishment

A quick guide to the causes, offensives, air & sea wars, trench warfare and US involvement and Treaty of Versailles related to World War I.

The Origins of the First World War

An exciting new series that covers the five Paper 2 topics of the IB 20th Century World History syllabus. This coursebook covers Paper 2, Topic 1, Causes, practices and effects of wars, in the 20th Century World History syllabus for the IB History programme. It is divided into thematic sections, following the IB

syllabus structure and is written in clear, accessible English. It covers the following areas for detailed study: First World War (1914-18); Second World War (1939-45); Asia and Oceania: Chinese Civil War (1927-37 and 1946-9); and Europe and Middle East: Spanish Civil War (1936-9). Tailored to the requirements and assessment objectives of the IB syllabus, it allows students to make comparisons between different regions and time periods.

5 Steps to a 5: AP World History 2019

This book presents a survey of approaches to dealing with ‘rival histories’ in the classroom, arguing that approaching this problem requires great sensitivity to differing national, educational and narrative contexts. Contested narratives and disputed histories have long been an important issue in history-teaching all over the world, and have even been described as the ‘history’ or ‘culture’ wars. In this book, authors from across the globe ponder the question “what can teachers do (and what are they doing) to address conflicting narratives of the same past?”, and puts an epistemological issue at the heart of the discussion: what does it mean for the epistemology of history, if it is possible to teach more than one narrative? Divided into three sections that deal with historical cultures, multicultural societies and multiperspectivity, the chapters of the book showcase that dealing with rival histories is very much dependent on context, and that diverse teaching traditions and societal debates mean that teachers’ abilities in engaging with the teaching of rival narratives are very different. The volume will

be compelling reading for students and researchers in the fields of education, history, sociology and philosophy, as well as practising teachers.

World War I

Get ready to ace your AP World History Exam with this easy-to-follow, multi-platform study guide The immensely popular test prep guide has been updated and revised with new material and is now accessible in print, online and mobile formats. 5 Steps to a 5: AP World History 2021 introduces an easy to follow, effective five-step study plan to help you build the skills, knowledge, and test-taking confidence you need to reach your full potential. The book includes hundreds of practice exercises with thorough answer explanations and sample responses. You'll learn how to master the multiple-choice questions and achieve a higher score on this demanding exam. Because this guide is accessible in print and digital formats, you can study online, via your mobile device, straight from the book, or any combination of the three. This essential guide reflects the latest course syllabus and includes four full-length practice exams (2 in the book and 2 online), plus proven strategies specific to each section of the test. 5 Steps to a 5: AP World History 2021 features: 4 Practice Exams (2 in the book + 2 online) Access to the entire Cross-Platform Prep Course in AP World History 2021 Hundreds of practice exercises with thorough answer explanations An interactive, customizable AP Planner app to help you organize your time Powerful analytics to assess test readiness Flashcards, games, and more

The War That Ended Peace

Winner of the James Harvey Robinson Prize from the American Historical Association--and widely acclaimed by educators and students--Abina and the Important Men, Second Edition, is a compelling and powerfully illustrated "graphic history" based on an 1876 court transcript of a West African woman named Abina, who

was wrongfully enslaved and took her case to court. The book is a microhistory that does much more than simply depict an event in the past; it uses the power of illustration to convey important themes in world history and to reveal the processes by which history is made. The story of Abina Mansah--a woman "without history" who was wrongfully enslaved, escaped to British-controlled territory, and then took her former master to court--takes place in the complex world of the Gold Coast at the onset of late nineteenth-century colonialism. Slavery becomes a contested ground, as cultural practices collide with an emerging wage economy and British officials turn a blind eye to the presence of underpaid domestic workers in the households of African merchants. The main scenes of the story take place in the courtroom, where Abina strives to convince a series of "important men"--a British judge, two Euro-African attorneys, and a jury of local leaders--that her experiences and perceptions matter. "Am I free?" Abina inquires. Throughout both the court case and the flashbacks that dramatically depict her life in servitude, both the defendants and members of the court strive to "silence" Abina and to impose their own understandings and meanings upon her. The story seems to conclude with the short-term success of the "important men," as Abina loses her case. But it doesn't end there: Abina is eventually redeemed. Her testimony is uncovered in the dusty archives by Trevor Getz and, through Liz Clarke's illustrations, becomes a graphic history read by people around the world. In this way, the reader takes an active part in the story along with the illustrator, the author, and Abina herself. Following the graphic history in Part I, Parts II-V provide detailed historical

context for the story, a reading guide that reconstructs and deconstructs the methods used to interpret the story, and strategies for using Abina in various classroom settings. This second edition features a new gender-rich section, Part V: Engaging Abina, which explores Abina's life and narrative as a woman. Focusing on such important themes as the relationship between slavery and gender in pre-colonial Akan society, the role of marriage in Abina's experience, colonial paternalism, and the meaning of cloth and beads in her story, this section also includes a debate on whether or not Abina was a slave, with contributions by three award-winning scholars--Antoinette Burton, Sandra Greene, and Kwasi Konadu--each working from different perspectives. The second edition includes new, additional testimony that was rediscovered in the National Archives of Ghana, which is also reflected in the graphic history section.

History of the Studebaker Corporation

The seminal event of the 20th century, the origins of the First World War have always been difficult to establish and have aroused deep controversy. Annika Mombauer tracks the impassioned debates as they developed at critical points through the twentieth century. The book focuses on the controversy itself, rather than the specific events leading up to the war. Emotive and emotional from the very beginning of the conflict, the debate and the passions aroused in response to such issues as the 'war-guilt paragraph' of the treaty of Versailles, are set in the context of the

times in which they were proposed. Similarly, the argument has been fuelled by concerns over the sacrifices that were made and the casualties that were suffered. Were they really justified?
