With iPhone Hacks, you can make your iPhone do all you'd expect of a mobile smartphone -- and more. Learn tips and techniques to unleash little-known features, find and create innovative applications for both the iPhone and iPod touch, and unshackle these devices to run everything from network utilities to video game emulators. This book will teach you how to: Import your entire movie collection, sync with

multiple computers, and save YouTube videos Remotely access your home network, audio, and video, and even control your desktop Develop native applications for the iPhone and iPod touch on Linux, Windows, or Mac Check email, receive MMS messages, use IRC, and record full-motion video Run any application in the iPhone's background, and mirror its display on a TV Make your iPhone emulate old-school video game platforms, and play classic console and arcade games Integrate your iPhone with your car stereo Build your own electronic bridges to connect keyboards, serial devices, and more to your iPhone without "jailbreaking" iPhone Hacks explains how to set up your iPhone the way you want it, and helps you give it capabilities that will rival your desktop computer. This cunning little handbook is exactly what you need to make the most of your iPhone.

### **The Fellowship of the Ring**

### **Harry Potter: The Complete Collection (1-7)**

Back then you played hardTill The Streetlights Came On. It was a time when chores were plentiful and toys were simple; when bad attitudes weren't treated with a prescription—you just beat the kid good. Video

games and shopping malls didn't exist, and hands got dirty in backyards and vacant lots. Such was the life of Stevie, a boy addicted to play. Whether being burned at the stake as a cowboy or escaping a Nazi POW camp, Stevie's life is one adventure after another—often comical, but always filled with spiritual consequence. Or at least that's the way his guardian, Uncle Harry, sees it. Whether facing the 'green mile' to pick out his own switch, being consigned to dreaded 'miscellaneous chores,' or obediently struggling to follow the complexities of how questioning the intelligence (or lack there of) of cats relates to the reality of God, Stevie knows he can always rely on Uncle Harry to provide answers—whether he can understand them or not—and look after his immortal soul. Capturing the waywardness of youth, and all the hilarity inherent in young boys and their crackbrained schemes, author Stephen Langdon's stories will keep you reading till the streetlights come on.

### **Assassin's Creed: Renaissance**

Older, wiser, and more deadly than ever, Master Assassin Ezio Auditore embarks on an epic journey to find the lost library of Altaïr in this novel based on the Assassin's Creed™ video game series. The library holds not only hidden knowledge but also the most unsettling secret the world has ever known; a secret the Templars hope to use to control humankind's destiny. Five keys are needed to access the library—to find them, Ezio must travel to the troubled city of Constantinople, where a growing army of

Templars threaten to destabilise the Ottoman Empire. Walking in the footsteps of his predecessor, Altaïr, Ezio must defeat the Templars for the final time. For the stakes have never been higher, and what started as a pilgrimage has become a race against time An Original Novel Based on the Multiplatinum Video Game from Ubisoft

O'Brien founded Typefi, the world's leading automated publishing system, and in his spare time invented a new type of espresso machine called mypressi. He's a perpetual innovator who remains astounded at the unparalleled creativity Minecraft can engender.

### **Jumper: Griffin's Story**

### **Till the Streetlights Came on**

"Game Feel" exposes "feel" as a hidden language in game design that no one has fully articulated yet. The language could be compared to the building blocks of music (time signatures, chord progressions, verse) - no matter the instruments, style or time period - these building blocks come into play. Feel and sensation are similar building blocks where game design is concerned. They create the meta-sensation of involvement with a game. The understanding of how game designers create feel, and affect feel are

only partially understood by most in the field and tends to be overlooked as a method or course of study, yet a game's feel is central to a game's success. This book brings the subject of feel to light by consolidating existing theories into a cohesive book. The book covers topics like the role of sound, ancillary indicators, the importance of metaphor, how people perceive things, and a brief history of feel in games. The associated web site contains a playset with ready-made tools to design feel in games, six key components to creating virtual sensation. There's a play palette too, so the designer can first experience the importance of that component by altering variables and feeling the results. The playset allows the reader to experience each of the sensations described in the book, and then allows them to apply them to their own projects. Creating game feel without having to program, essentially. The final version of the playset will have enough flexibility that the reader will be able to use it as a companion to the exercises in the book, working through each one to create the feel described.

### **The Rough Guide to Videogames**

All seven eBooks in the multi-award winning, internationally bestselling Harry Potter series, available as one download with stunning cover art by Olly Moss. Enjoy the stories that have captured the imagination of millions worldwide.

### **The Adventure of Black Peter**

Do you love video games? Ever wondered if you could create one of your own, with all the bells and whistles? It's not as complicated as you'd think, and you don't need to be a math whiz or a programming genius to do it. In fact, everything you need to create your first game, "Invasion of the Slugwroths," is included in this book and CD-ROM. Author David Conger starts at square one, introducing the tools of the trade and all the basic concepts for getting started programming with C++, the language that powers most current commercial games. Plus, he's put a wealth of top-notch (and free) tools on the CD-ROM, including the Dev-C++ compiler, linker, and debugger--and his own LlamaWorks2D game engine. Step-by-step instructions and ample illustrations take you through game program structure, integrating sound and music into games, floating-point math, C++ arrays, and much more. Using the sample programs and the source code to run them, you can follow along as you learn. Bio: David Conger has been programming professionally for over 23 years. Along with countless custom business applications, he has written several PC and online games. Conger also worked on graphics firmware for military aircraft, and taught computer science at the university level for four years. Conger has written numerous books on C, C++, and other computer-related topics. He lives in western Washington State and has also published a collection of Indian folk tales.

### **Red Dead Redemption 2**

Captain Peter, called also "Black Peter" because of his dark moods, is found dead. The police inspector Hopkins tries to find the murderer but without any success. He then contacts Holmes asking him for help with the case. Holmes and Hopkins are at the crime scene where they decide to hide and see if the guilty one will show up again. And then a young man enters the room. What happened afterwards? Did they catch the murderer or there is something more to the story? Will Holmes solve the case or this one will be harder than expected? Sir Arthur Conan Doyle (1859-1930) was born in Scotland and studied medicine at the University of Edinburgh. After his studies, he worked as a ship's surgeon on various boats. During the Second Boer War, he was an army doctor in South Africa. When he came back to the United Kingdom, he opened his own practice and started writing crime books. He is best known for his thrilling stories about

the adventures of Sherlock Holmes. He published four novels and more than 50 short-stories starring the detective and Dr Watson, and they play an important role in the history of crime fiction. Other than the Sherlock Holmes series, Doyle wrote around thirty more books, in genres such as science-fiction, fantasy, historical novels, but also poetry, plays, and non-fiction.

Sauron, the Dark Lord, has gathered to him all the Rings of Power - the means by which he intends to rule Middle-earth. All he lacks in his plans for dominion is the One Ring - the ring that rules them all - which has fallen into the hands of the hobbit, Bilbo Baggins. In a sleepy village in the Shire, young Frodo Baggins finds himself faced with an immense task, as his elderly cousin Bilbo entrusts the Ring to his care.

Frodo must leave his home and make a perilous journey across Middle-earth to the Cracks of Doom, there to destroy the Ring and foil the Dark Lord in his evil purpose. To celebrate the release of the first of Peter Jackson's two-part film adaptation of *The Hobbit*, *THE HOBBIT: AN UNEXPECTED JOURNEY*, this first part of *THE LORD OF THE RINGS* is available for a limited time with an exclusive cover image from Peter Jackson's award-winning trilogy.

### **HWM**

Betrayed by the ruling families of Italy, a young man embarks upon an epic quest for vengeance during the Renaissance in this novel based on the *Assassin's Creed™* video game series. "I will seek vengeance upon those who betrayed my family. I am Ezio Auditore Da Firenze. I am an Assassin..." To eradicate corruption and restore his family's honor, Ezio will learn the art of the Assassins. Along the way, he will call upon the wisdom of such great minds as Leonardo da Vinci and Niccolò Machiavello—knowing that survival is bound to the skills by which he must live. To his allies, he will become a force for change—fighting for freedom and justice. To his enemies, he will become a threat dedicated to the destruction of the tyrants abusing the people of Italy. So begins an epic story of power, revenge and conspiracy. An Original Novel Based on the Multiplatinum Video Game from Ubisoft. From the Paperback edition.
