### **Cross-Platform GUI Programming with wxWidgets**

### **Federal Library Resources**

### **Macintosh Hypermedia: Reference guide**

### **Handbook of Technical Writing**

### **Standard & Poor's Earnings and Ratings Bond Guide**

This second edition of a well-received text, with 20 new chapters, presents a coherent and unified repository of recommender systems' major concepts, theories, methodologies, trends, and challenges. A variety of real-world applications and detailed case studies are included. In addition to wholesale revision of the existing chapters, this edition includes new topics including: decision making and recommender systems, reciprocal recommender systems,

recommender systems in social networks, mobile recommender systems, explanations for recommender systems, music recommender systems, cross-domain recommendations, privacy in recommender systems, and semantic-based recommender systems. This multi-disciplinary handbook involves world-wide experts from diverse fields such as artificial intelligence, human-computer interaction, information retrieval, data mining, mathematics, statistics, adaptive user interfaces, decision support systems, psychology, marketing, and consumer behavior. Theoreticians and practitioners from these fields will find this reference to be an invaluable source of ideas, methods and techniques for developing more efficient, cost-effective and accurate recommender systems.

### **IBM Content Manager OnDemand Guide**

This IBM® Redbooks® publication provides a practical guide to the design, installation, configuration, and maintenance of IBM Content Manager OnDemand Version 9.5. Content Manager OnDemand manages the high-volume storage and retrieval of electronic statements and provides efficient enterprise report management. Content Manager OnDemand transforms formatted computer output and printed reports, such as statements and invoices, into electronic information for easy report management. Content Manager OnDemand helps eliminate costly, high-volume print output by capturing, indexing, archiving, and presenting electronic information for improved customer service. This publication covers the key areas of Content Manager OnDemand, some of which might not be known to the Content Manager OnDemand community or are misunderstood. The book covers various topics, including basic information in administration, database structure, storage management, and security. In addition, the book covers data indexing, loading, conversion, and expiration. Other topics include user exits, performance, retention management, records management, and many more. Because many other resources are available that address subjects on different platforms, this publication is not intended as a comprehensive guide for Content Manager OnDemand. Rather, it is intended to complement the existing Content Manager OnDemand documentation and provide insight into the issues that might be encountered in the setup and use of Content Manager OnDemand. This book is intended for individuals who need to design, install, configure, and maintain Content Manager OnDemand.

### **The Book Trade in Canada**

### **Standard and Poor's Stock and Bond Guide, 2003 Edition**

### **InfoWorld**

""Belongs on every individual investor's shelf."--Smart Money Standard & Poor's is recognized as the world's leading provider of securities information. "Standard & Poor's Stock and Bond Guide, 2003 Edition, is a complete directory and performance guide to more than 14,000stocks, bonds, and mutual funds. Investors get all the vital data they need to make the most informed stock picks--including hard-to-find, detailed coverage of convertible and preferred stocks.

## **The Late Age of Print**

The Smalltalk-80 system is an integrated, graphical, and interactive programming environment with capabilities for producing highly functional contact with personal computer systems. This book, a revision of Smalltalk-80: The Language and its Implementation, includes the latest developments and newest features of Smalltalk-80 Version 2.

## **Idea Man**

Created by the Joint Photographic Experts Group (JPEG), the JPEG standard is the first color still image data compression international standard. This new guide to JPEG and its technologies offers detailed information on the new JPEG signaling conventions and the structure of JPEG compressed data.

InfoWorld is targeted to Senior IT professionals. Content is segmented into Channels and Topic Centers. InfoWorld also celebrates people, companies, and projects.

## **National Guide to Funding in Arts and Culture**

The Microsoft co-founder shares the story of his life while revealing the lessons he has learned throughout his influential career, covering topics that range from his partnership with Bill Gates and his ambitions for private space travel to his world-changing initiatives and his battle against lymphoma. 80,000 first printing.

## **InfoWorld**

## **Bowker's Complete Sourcebook of Personal Computing 1985**

Here, the author assesses our modern book culture by focusing on five key elements including the explosion of retail bookstores like Barnes & Noble and Borders, and the formation of the Oprah Book Club.

## **The National Guide to Educational Credit for Training Programs**

Every day, billions of photographs, news stories, songs, X-rays, TV shows, phone calls, and emails are being scattered around the world as sequences of zeroes and ones: bits. We can't escape this explosion of digital information and few of us want to-the benefits are too seductive. The technology has enabled unprecedented innovation, collaboration, entertainment, and democratic participation. But the same engineering marvels are shattering centuries-old assumptions about privacy, identity, free expression, and personal control as more and more details of our lives are captured as digital data. Can you control who sees all that personal information about you? Can email be truly confidential, when nothing seems to be private? Shouldn't the Internet be censored the way radio and TV are? is it really a federal crime to download music? When you use Google or Yahoo! to search for something, how do they decide which sites to show you? Do you still have free speech in the digital world? Do you have a voice in shaping government or corporate policies about any of this? Blown to Bits offers provocative answers to these questions and tells intriguing real-life stories. This book is a wake-up call To The human consequences of the digital explosion.

InfoWorld is targeted to Senior IT professionals. Content is segmented into Channels and Topic Centers. InfoWorld also celebrates people, companies, and projects.

## **The EBay Price Guide**

This book is for all people who are forced to use UNIX. It is a humorous book--pure entertainment--that maintains that UNIX is a computer virus with a user interface. It features letters from the thousands posted on the Internet's "UNIX-Haters" mailing list. It is not a computer handbook, tutorial, or reference. It is a self-help book that will let readers know they are not alone.

## **Bond Guide**

## **Custom House Guide**

Presents detailed information on top internships in the United States, including facts about employers, with location, contact information, application deadlines, qualifications and job descriptions.

## **JPEG**

Facilitating Interdisciplinary Research examines current interdisciplinary research efforts and recommends ways to stimulate and support such research. Advances in science and engineering increasingly require the collaboration of scholars from various fields. This shift is driven by the need to address complex problems that cut across traditional disciplines, and the capacity of new technologies to both transform existing disciplines and generate new ones. At the same time, however, interdisciplinary research can be impeded by policies on hiring, promotion, tenure, proposal review, and resource allocation that favor traditional disciplines. This report identifies steps that researchers, teachers, students, institutions, funding organizations, and disciplinary societies can take to more effectively conduct, facilitate, and evaluate interdisciplinary research programs and projects. Throughout the report key concepts are illustrated with case studies and results of the committee's surveys of individual researchers and university provosts.
