The Latin course is written entirely in Latin. It consists of two parts: I: Familia Romana -- the fundamental or elementary course. II: Roma Aeterna -- the advanced course, with Indices covering both parts. The direct method is based on the inductive principle of learning. In the text every sentence is intelligible per se, or self-explanatory, because the meaning and function of all new words and grammatical forms are made clear by the context in which they occur, or if necessary, by illustrations or marginal notes using vocabulary already learned. This demands a carefully graded text, but in order to make learning efficient the content should stimulate interest and curiosity and make it easy for the reader to visualise the scenes and situations described. To meet these demands the chapters of Lingva Latina I form a

continuous narrative, a sort of Latin novel, which captivates the students so that they look forward to reading the continuation of the story. While reading this story and learning facts about the Roman life and traditions, the students pick up the vocabulary and grammar that will enable them to go on, in Part II, to read a representative selection of Latin literature, both prose and poetry. Here, too, all new words and structures, if not immediately intelligible from the context, are explained by marginal notes or illustrations. In addition, factual information is given in the margin. Part I covers the essentials of Latin grammar and introduces a basic vocabulary of some 1600 words. The 35 chapters form a sequence of scenes and incidents from the life of a Roman family in the second century A.D. Each chapter is divided into 3 or 4 lessons (lectiones) and consists of several text pages followed by a section on grammar, three exercises, and a list of new words. At the end of the volume there is a survey of inflexions, a Roman calendar, and alphabetical word-list and a grammatical index.

Story of the Electric Organ

Initially dominated by simple renditions of East Coast architecture, Milwaukee developed from three pioneer settlements, those of Solomon Juneau, Byron Kilbourn, and George Walker—three hubs from which three villages radiated outward into one city. Following the Civil War, Milwaukee's growth at the onset of the Industrial Era afforded the city a fanciful array of Victorian streetscapes. The 1890s followed

with an era of ethnic architecture in which bold interpretations of German Renaissance Revival and Baroque designs paid homage to Milwaukee's overwhelming German population. At the turn of the century, Milwaukee's proximity to Chicago influenced the streetscape with classicized civic structures and skyscrapers designed by Chicago architects. World War I and the ensuing anti-German sentiment, as well as Prohibition, inevitably had adverse effects on "Brew City." By the 1920s, Milwaukee's architecture had assimilated to the national aesthetic, suburban development was on the rise, and architectural growth would soon be stunted by the Great Depression.

Aloys Schmitt is best remembered for his Op. 16 exercises. The collection is divided into three sections. The first aids students in developing finger independence through a variety of single and double-note patterns within the range of a fifth. The second section emphasizes passing the thumb under fingers to prepare for scales and arpeggios. The final section provides traditional scales and arpeggios in a notated format with fingering.

88 Keys - The Making of a Steinway Piano

Ogni domenica mattina in piazza di Pasquino a Roma, nei pressi di piazza Navona, si può udire un sound coinvolgente caratterizzato da andamenti ritmici provenienti dal cuore dell’Africa. Si tratta del coro Bondeko che anima il rito cattolico zairese nella chiesa della Natività di Gesù; esengo è la parola che in lingua lingala significa “gioia”. Il volume è il risultato di una ricerca etnomusicologica condotta nella comunità congolese dal 2013, primo di una serie di monografie dedicate ad altri luoghi di culto frequentati da immigrati nella città di Roma. Esengo, realizzato in forma dialogica, si apre con un’introduzione storica del cristianesimo in Congo per poi focalizzarsi sulla storia della preziosa realtà congolese della chiesa della Natività. Seguono analisi e trascrizioni musicali di alcuni brani significativi del repertorio liturgico e un focus sulle pratiche musicali della Settimana Santa. Chiude il volume una sezione dedicata alle storie dei protagonisti del coro Bondeko. Esengo è corredato da un apparato multimediale che comprende fotografie e filmati documentati sul campo, disponibili alla pagina Multimedia di NeoClassica.

In this stunning follow-up to his best-selling book, *The Five Temptations of a CEO*, Patrick Lencioni offers up another leadership fable that's every bit as compelling and illuminating as its predecessor. This time, Lencioni's focus is on a leader's crucial role in building a healthy organization--an often overlooked but essential element of business life that is the linchpin of sustained success. Readers are treated to a story of corporate intrigue as the frustrated head of one consulting firm faces a leadership challenge so great that it threatens to topple his company, his career, and everything he holds true about leadership itself. In the story's telling, Lencioni helps his readers understand the disarming simplicity and power of creating organizational health, and reveals four key disciplines that they can follow to achieve it.

The Practice of Contemplative Photography

In his major work on communism, the international bestseller *The Passing of an Illusion*, the eminent French historian Franöois Furet devoted a lengthy footnote to German historian Ernst Nolte's interpretation of fascism. Nolte responded, a correspondence ensued, and the result was the remarkable exchange presented in this volume. *Fascism and Communism* offers readers the rare

opportunity to witness and learn from a confrontation between two of the world's most distinguished historians over one of the most serious subjects of our time. Each from a different perspective, Furet and Nolte offer compelling arguments for the common genealogy of these two ideologies as well as reasons for the intellectual community's rejection of this explosive thesis throughout the twentieth century. This discussion leads to a deeper understanding of the nature of totalitarianism as well as the trajectory and interpretation of modern European history.
