Slash

City on the Moon

Music is an important domain of application for schema theory. The perceptual

structures for pitch and timbre have been mapped via schemata, with results that have contributed to a better understanding of music perception. Yet we still need to know how a schema comes into existence, or how it functions in a particular perception task. This book provides a foundation for the understanding of the emergence and functionality of schemata by means of computer-based simulations of tone center perception. It is about how memory structures self-organize and how they use contextual information to guide perception.

Modern Legal Drafting provides a comprehensive, authoritative guide to drafting legal documents in effective, plain English. Peter Butt, a leading expert in the field, has fully revised and updated the text for this new edition. It combines a practical focus with the legal principles that underpin the use of plain language in law. This dual practical and academic approach distinguishes it from other books in the field. It includes expanded material on the techniques for achieving a style that is both clear and legally sound. It also includes new material on the challenges and merits of drafting in plain language, and provides many before-and-after examples to help both practising lawyers and students develop their skills. It takes an international approach, drawing upon case law and statutes from England, Australia, New Zealand, the United States, Canada, Ireland, India, Malaysia, Singapore and Hong Kong.

African American Religion

On the Beaten Path

Life on the moon under anything less than optimal conditions had always been a nightmare, and as Joe Kenmore and his colleague, Moreau, drove back to the City On The Moon on that day the Earth shuttle was due to land, the nearby mountain supporting critical elements of the shuttle's landing mechanisms crumbled causing an avalanche and resulting in chaos. Optimal conditions were no where in sight that day and as Kenmore and Moreau's investigations lead to their conclusion that explosions had been responsible for the avalanche. Now they realized that they were in a race against the clock to restore the landing beam before the shuttle had reached it's point of no return prior to landing. Kenmore had more than strictly humanitarian reasons for wanting to prevent a mishap aboard the shuttle that day, because on this particular mission, Arlene Gray was aboard. Kenmore had been anxiously awaiting her arrival, and now his love's life might hang in the balance.

Absolute Beginner's Bodhran Tutor

This textbook introduces the “Fundamentals of Multimedia”, addressing real issues

commonly faced in the workplace. The essential concepts are explained in a practical way to enable students to apply their existing skills to address problems in multimedia. Fully revised and updated, this new edition now includes coverage of such topics as 3D TV, social networks, high-efficiency video compression and conferencing, wireless and mobile networks, and their attendant technologies. Features: presents an overview of the key concepts in multimedia, including color science; reviews lossless and lossy compression methods for image, video and audio data; examines the demands placed by multimedia communications on wired and wireless networks; discusses the impact of social media and cloud computing on information sharing and on multimedia content search and retrieval; includes study exercises at the end of each chapter; provides supplementary resources for both students and instructors at an associated website.

H.R.G.

Written and illustrated by Indians, this anthology from the new Figures in a Landscape series presents an image of another English-speaking region of the world. Like the other volumes in the series, it reflects universal themes, but it also portrays a particular sensibility and signposts a particular history by exploring: colonialism and its aftermath; pre- and post-Independence and Partition; regional identities; the rapid spread of industrialisation; the challenging of traditions and values, particularly by women.

A Practical Guide to Legal Research

Manuals

Essential Modern World History

This product represents a complete resource package for the new GCSE specifications. Accompanying the student book, this resource pack has been specifically developed to match the AQA Modern World GCSE specification. The pack features practical advice and ready-to-use copymasters that aim to provide detailed assessment guidance; differentiated support for all ability levels; a breakdown of different types of questions in the written examination papers at two levels; and coverage of content options within each question type.

Joy From Deep Within

"African American Religion offers a provocative historical and philosophical treatment of the religious life of African Americans. Glaude argues that the phrase "African American religion" is meaningful only insofar as it singles out the distinctive ways religion has been leveraged by African Americans to respond to different racial regimes in the United States. That bold claim frames how he reads

the historical record. Slavery, Jim Crow, and current appeals to color blindness serve as a backdrop for histreatment of conjure, African American Christianity and Islam"--

amazing photos * 250 pages! *****Drummers include: * Travis Barker * Carlton Barrett * Carter Beauford * Jason Bittner * John Bonham * Danny Carey * Billy Cobham * Tr? Cool * Stewart Copeland * Lowell "Sly" Dunbar * Jon Fishman * Mickey Hart * Topper Headon * Bill Kreutzmann * Gene Krupa * Joseph "Zigaboo" Modeliste * Keith Moon * Vinnie Paul * Neil Peart * Mike Portnoy * Buddy Rich * Max Roach * Chad Smith * John "Jabo" Starks * Ringo Starr * Clyde Stubblefield * Lars Ulrich * Dave Weckl * Tony Williams . . .

The Making of a Drum Company

(Book). The Ludwig Drum Company was the world's largest drum company in the 1920s under founder William F. Ludwig, and again in the 1960s under his son. This fascinating autobiography by William F. Ludwig II begins with his childhood recollections of home life and his father's drum factory. As a teenager, Mr. Ludwig became the national rudimental champion and member of the famous International Marimba Symphony Orchestra. Taking time out for distinguished wartime military service, the author helped his father start a second drum company, W.F.L. Restoration of the family name to the business, Total Percussion, The Beatles, N.A.R.D., selling the company to Selmer, and his active lecture career since all these topics are addressed here in captivating detail, in the words of William F. Ludwig II.

Go Math Assessment Guide

Using Your Portable Studio

A coloring book to familiarize the user with the Primary elements in the Periodic Table. The Periodic Table Coloring Book (PTCB) was received worldwide with acclaim. It is based on solid, proven concepts. By creating a foundation that is applicable to all science ("Oh yes, Hydrogen, I remember coloring it, part of water, it is also used as a fuel; I wonder how I could apply this to the vehicle engine I am studying") and creating enjoyable memories associated with the elements science becomes accepted. These students will be interested in chemistry, engineering and other technical areas and will understand why those are important because they have colored those elements and what those elements do in a non-threatening environment earlier in life.

Getting professional results out of today's portable studios is an art. In this book, top producer and engineer Peter Mclan guides you step by step through the theory and practice of getting the most out of these remarkable machines. As you are introduced to the Why, What, and how of studio recording and production, you will find invaluable 'recipes' designed to show you how to 'push the envelope' of your portable studio's capabilities.

One Solitary Life

They said Steve Biko was a man of violence; then why did he talk of peace? They said he wanted revolution; so why did he talk of friendship? They said he died of hunger; why was his body broken and bruised ? This is the story of a man's fight with the government of South Africa. It is the story of ail people who prefer truth to lies. It is the story of ail people who cry 'Freedom', and who are not afraid to die.

What do I need to make a garden? What plants can I eat from my garden? Is spaghetti squash a plate of flat pasta? If you want to know more about growing your own juicy tomatoes, crunchy carrots and tasty strawberries, then this is the book for you. Find out what tools you need and how to make seeds grow into fruit, flowers or vegetables.

Rat Catching

Sound Beginnings offers advice to all elementary level teachers who may not be specialists in the field of music. This book provides practical strategies for teaching children to perform, compose and appraise music of all kinds - offering ideas for five-minute activities as well as more extended classroom projects. In this book Richard Frostick gives the benefit of twenty years experience as a music teacher, advisor and inspector.

Oxford Bookworms Library: Stage 6: Cry Freedom

Dora has always taken the path of least resistance. She went to the college that offered her a scholarship, is majoring in "vagueness studies," and wears whatever shows the least dirt. She falls into a job at the college coffee shop, and a crush on her flirty boss, Gary. Just when she's about to test Gary's feelings, Mimi, the

grandmother who raised her, suffers a stroke. Dora rushes back home to Forsyth, NC, and finds herself running her grandmother's vintage clothing store. The store has always been a fixture in Dora's life; though she grew up more of a jeans-and-sweatshirt kind of girl, before she even knew how to write, Mimi taught her that a vintage 1920s dress could lift a woman's spirit. While working there, Dora befriends Mimi's adorable contractor, Conrad. Is he after Dora, or is working from a different blueprint? And why did Mimi start writing down--and giving away--stories of the dresses in her shop? When Mimi dies, Dora can't get out of town fast enough and cedes control of the store to her money-hungry aunt who wants to turn it into a t-shirt shop for tourists. But ultimately, she returns to Forsyth, willing to battle whatever may stand in the way of her staying there. Dora can trade her boring clothes for vintage glamour, but can she trade her boring life for one she actually wants?

The Secret Lives of Dresses

A unique and detailed instructional study of Guns N' Roses' lead guitarist's stellar licks. Features songs from all of their albums, including: November Rain * You Could Be Mine * Patience * Welcome To the Jungle * and much more!

The Gibson Guitar from 1950

What do we all humans have in common? We are all incorrigible seekers of bliss or joy. Our minds are wired to be happy. At least that is what our modern scientific studies contend. Yet most of us know we are not joyful. In fact, we struggle most of time to be and stay happy. What has gone wrong? I have attempted to answer this question in this book. It has been my own journey to arrive at lasting happiness and joy. It builds on the informational, computational foundation of our universe developed in the first book of this series, Road to Digital Divine. It combines latest science of mind and matter with spirituality, putting forth a new concept of our self, the quantum self rooted in the informational nature of our being. Most of us are familiar with our physical self that we see in the mirror. It, however, does not define us completely. What is critical for us to know is our informational self. Knowing the true nature of this self and acting accordingly is essential for us humans to achieve good emotional health and realize lasting joy in our lives. In fact, not knowing or ignoring the messages from this essential nature of our self is the leading reason for suffering in our human society. I paint this self as a tale of three minds: emotional, rational, and cosmic. The three minds computationally synchronized lead to the birth of informational self. This self is a computationally astute structure. It computes using two modes of computation. Each of these modes lead to two extreme personalities. One, binary computation, which leads to a nature of self that courts “I, me, and mine” tendencies. I have called this as our binary self. And the other, quantum computation, which leads to a nature of self with “us, we, and ours” tendencies. I call this as our quantum self. Both these

nature of self are quite familiar in today's society. The binary information processing leads to egoic entity, which is present in most of us. It dominates today's human society. It is responsible for incredible progress that humans have made as a surviving species, but it is also responsible for most of the sufferings that modern humans face today. The quantum self has saintlike nature. It feels love, empathy, and oneness with others. It is truthful and always stays in the company of divinity. It is responsible for widespread altruism in nature and in humans. With two selves of very different nature in one body, modern humans have learned the meaning of the word "suffering." Which self will win? Which is our true self? Understanding of this fact is not trivial. In fact, it is nothing short of enlightenment as I explain how the understanding of our true self can lead one on to this path. It can make a profound change in one's perspective. The joy pouring from deep within is at the root of this reality.
